Poultry Science Summer Institute (PSSI) Application

About PSSI

The Poultry Science Summer Institute is sponsored by NC State University and North Carolina Cooperative Extension 4-H Youth Program with the Prestage Department of Poultry Science.

Calling all high school students (rising sophomores, juniors and seniors) who are passionate about science and poultry and are seeking a dynamic virtual summer experience. Please join our faculty from NC State's Prestage Department of Poultry Science; these faculty members represent disciplines of science from embryology to immunology!

Youth will have learning opportunities with an expert in various sciences such as bird anatomy, incubation and embryology, egg quality, turkey rearing and management, feed milling, poultry veterinary medicine, immunology, and processing and products.

Students will be provided a camp T-shirt, swag, materials, and fun, poultry-themed snacks!

The cost of the institute is only \$100 per student, thanks to the generous subsidy by US Poultry & Egg. All housing, food, and workshop materials will be provided.

Please contact Mary Fosnaught at mhfosnau@ncsu.edu with any questions, comments, or for inquiry about scholarships for those with financial need. For more details, please visit go.ncsu.edu/pssi
