

3. The viability of any state depends on a balance between centripetal and centrifugal forces.
- A. Define the concepts “centripetal force” and “centrifugal force.”
 - B. Give a specific example of and explain a centripetal force that affects the viability of any of the states shown on the map above.
 - C. With reference to a different specific example, explain a centrifugal force that affects the viability of any of the states shown on the map above.
