

How to Use Kahoot

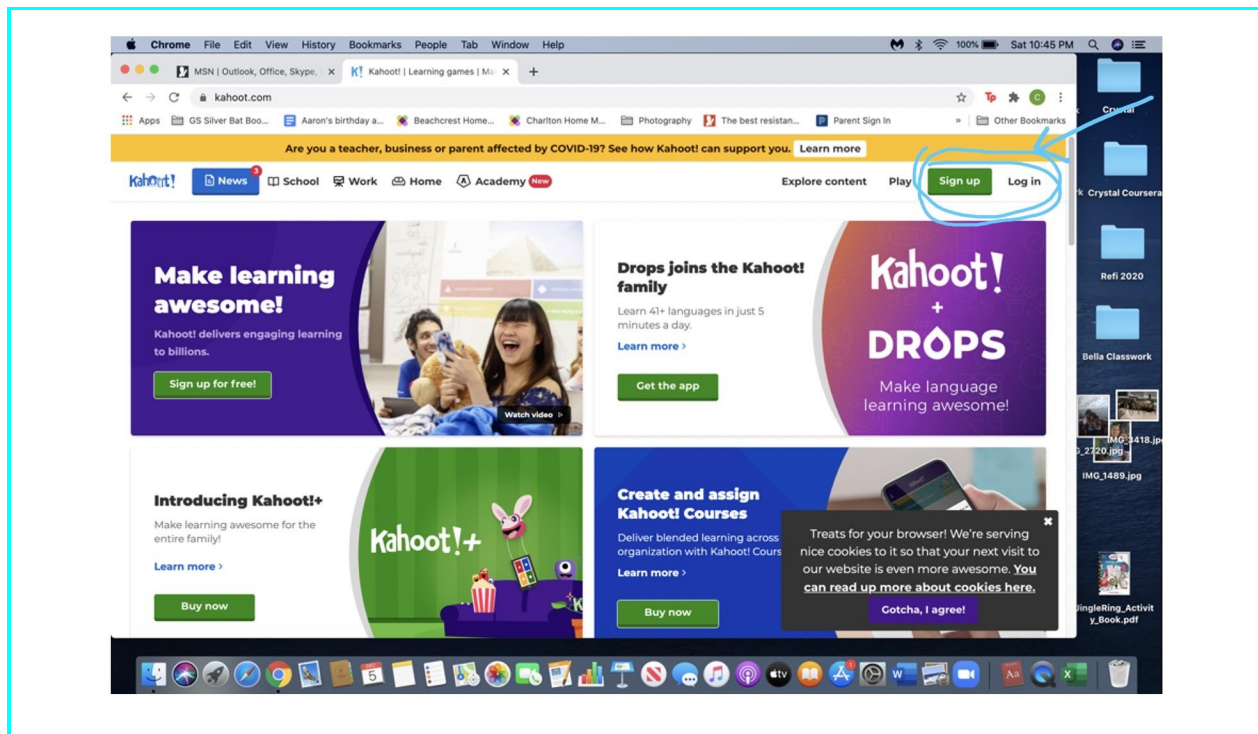

Kahoot is a website that allows players to compete against each other in virtual quiz shows. The quiz show could be educational (math, science, geography, etc.) or just plain fun (music lyrics, emojis, movies, anything you can think of). Players can participate in existing quizzes (sometimes called “Kahoots”) or create their own silly quizzes. Kahoot can be used as a fun activity during virtual play dates, group study sessions, brain breaks, Fun Fridays, and more.

Step 1 -

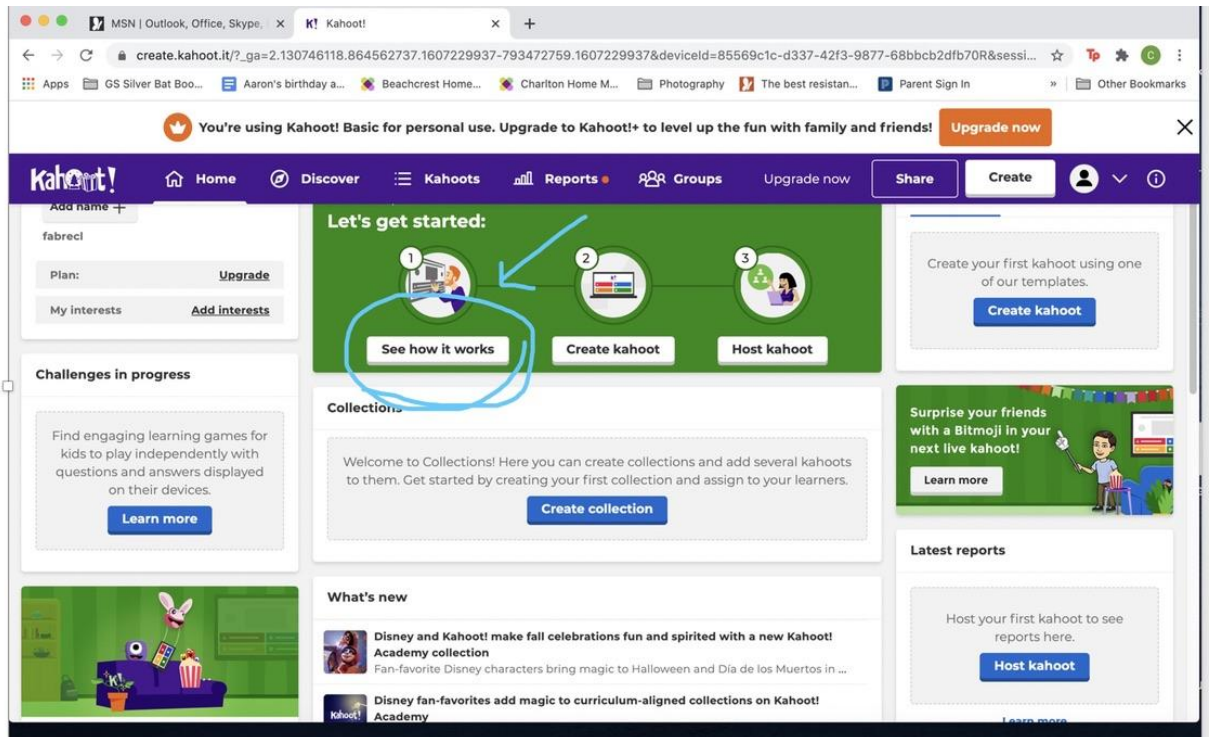

Visit Kahoot.com

Create your own account

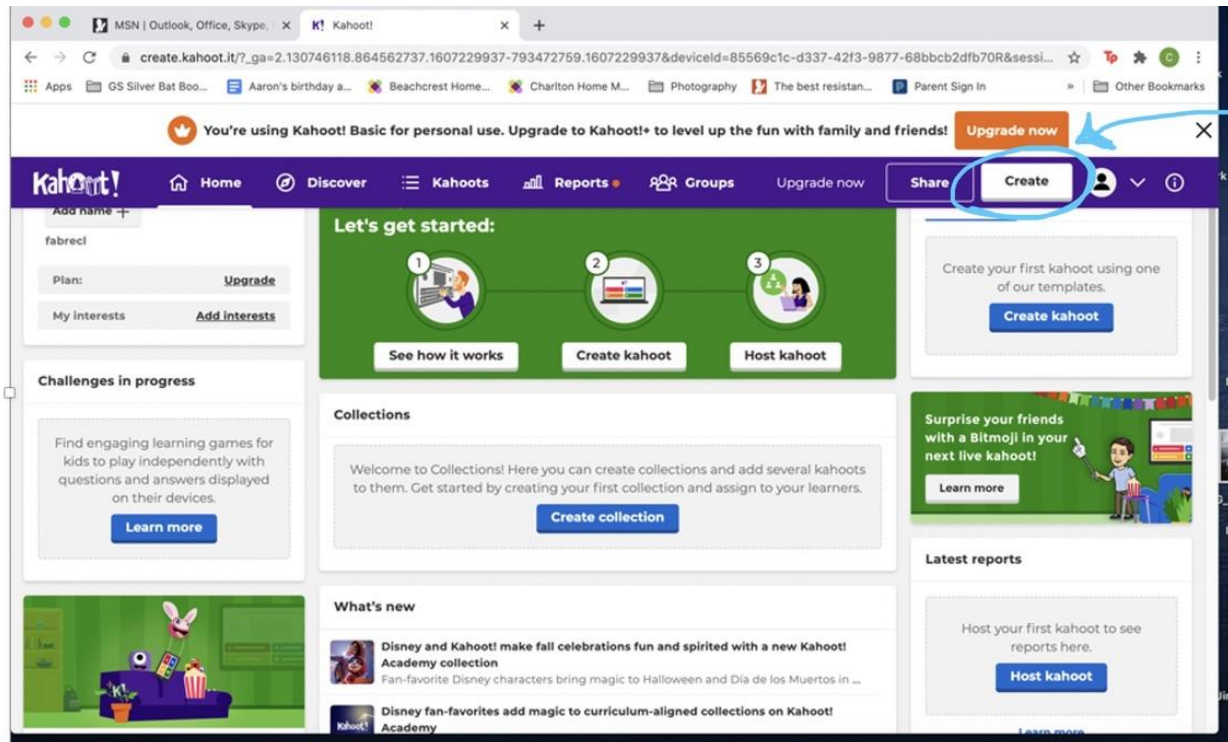

There is a FREE option as well as a few subscriptions

If you've never played Kahoot, you can opt to take a quick tutorial...

Or, you can dive right in to share or create a quiz...

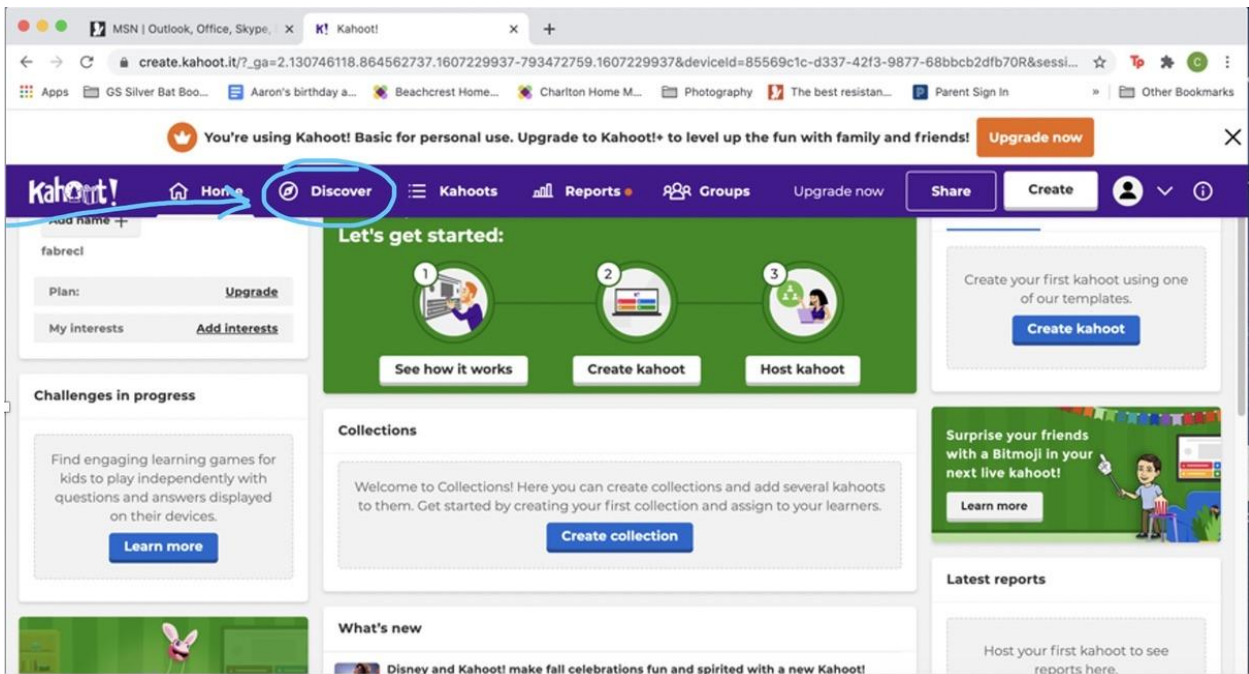

Step 2 – You are ready to share a quiz

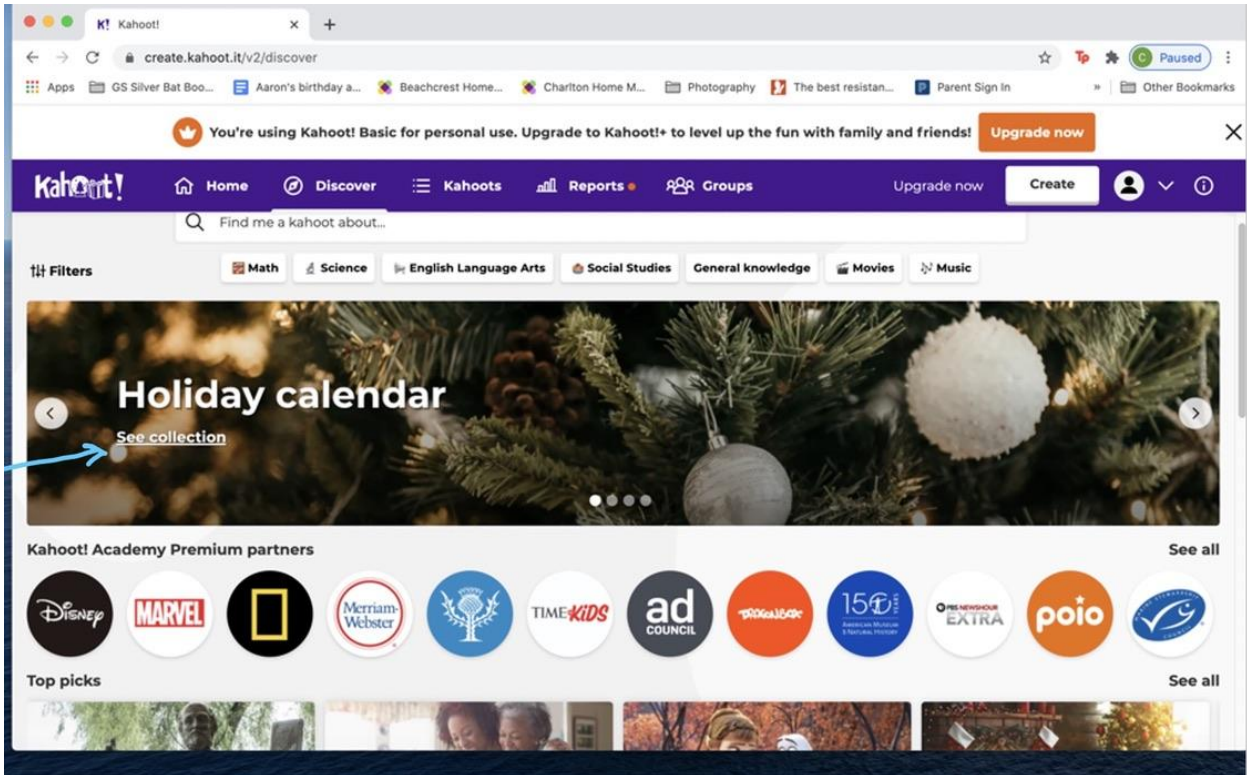

Option 1 – Quick & Easy

Choose from a selection of existing quizzes

1. Click on Discover

2. You'll be taken to a page with several collections of quizzes, sorted by themes and subjects, to pick from.

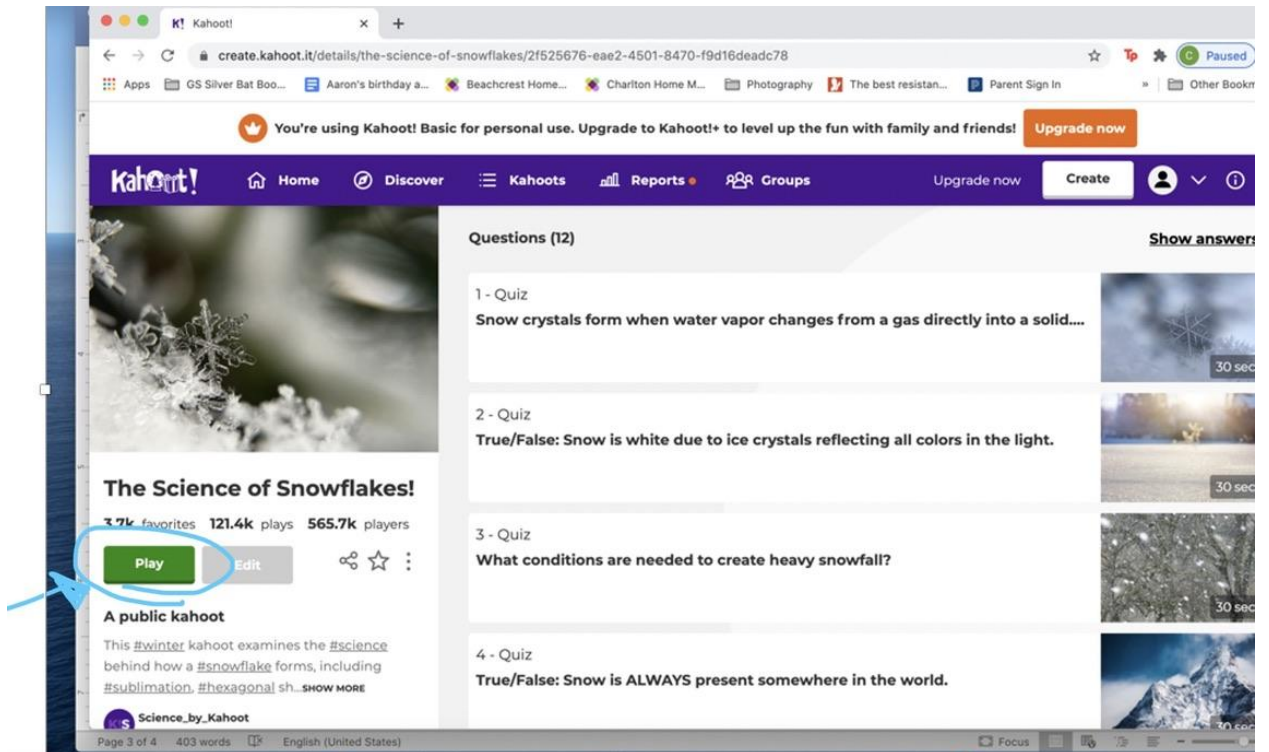

3. Choose a quiz and click on it.

The screenshot shows the Kahoot! website interface. At the top, there's a navigation bar with links for Home, Discover, Kahoots, Reports, and Groups. Below this is a purple banner for the 'Holiday calendar' featuring a 'K! ACADEMY Premium partner' badge. The main content area is titled 'Top kahoots' and displays three quiz cards:

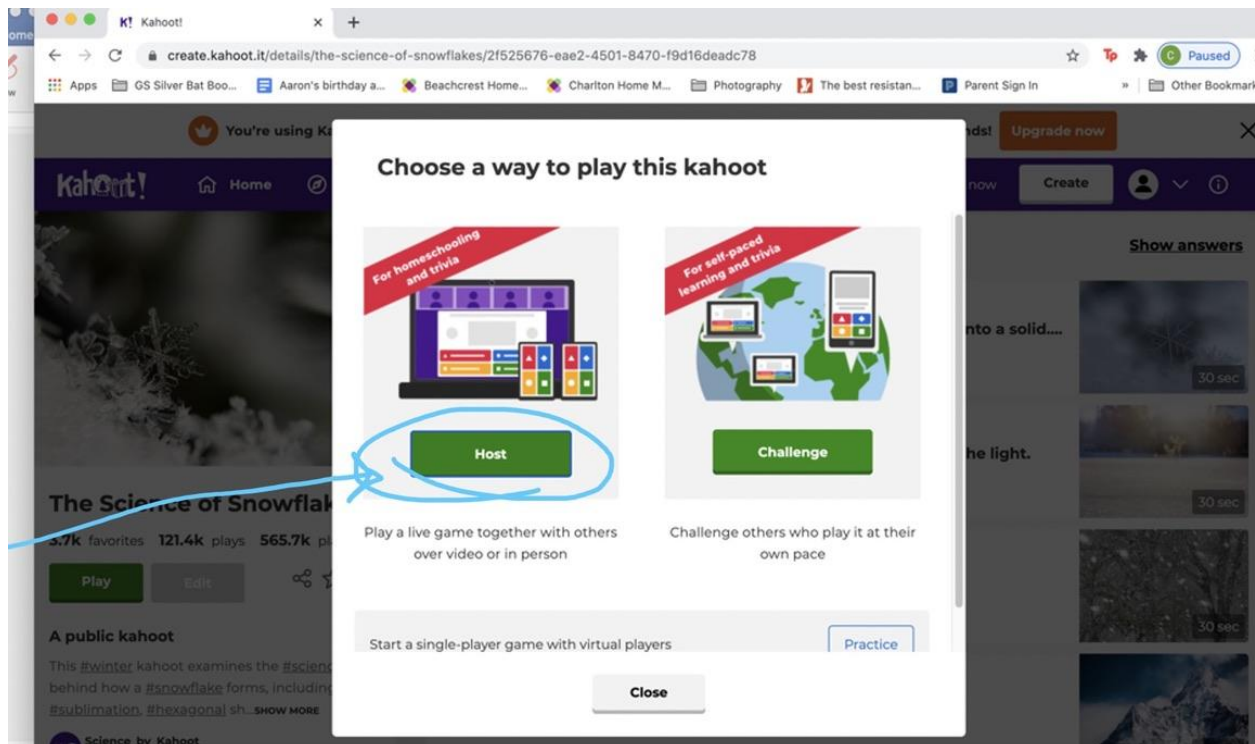

- The Science of Snowflakes!**
Created about 2 years ago • 121.4k plays
By Science_by_Kahoot
- Holiday Music Lyrics**
Created about 1 year ago • 362.7k plays
By KahootStudio
- 11. Merry Christmas level 5**
Created about 2 months ago • 63k plays
By Brendan.Timlin

A blue circle highlights the title 'The Science of Snowflakes!' and an arrow points to it from the left. The URL in the address bar is <https://create.kahoot.it/details/the-science-of-snowflakes/2f525676-eae2-4501-8470-f9d16dead78>.

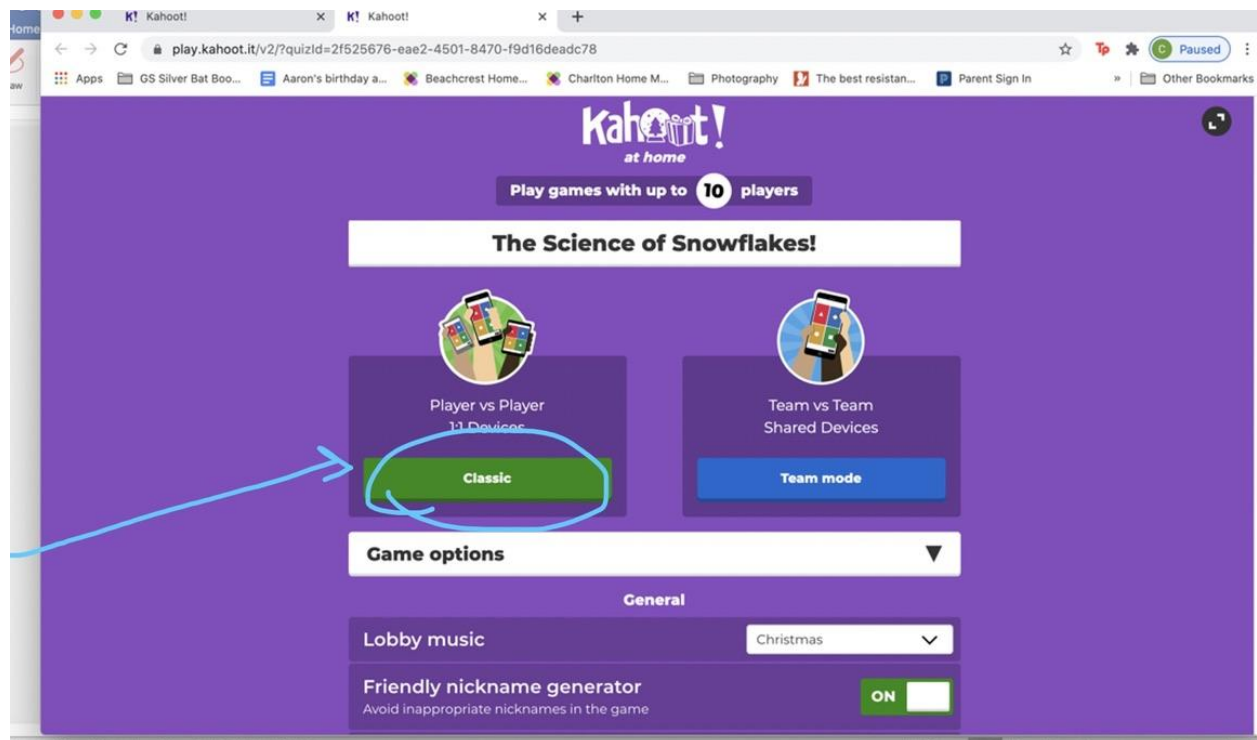

4. Click on Green Play button

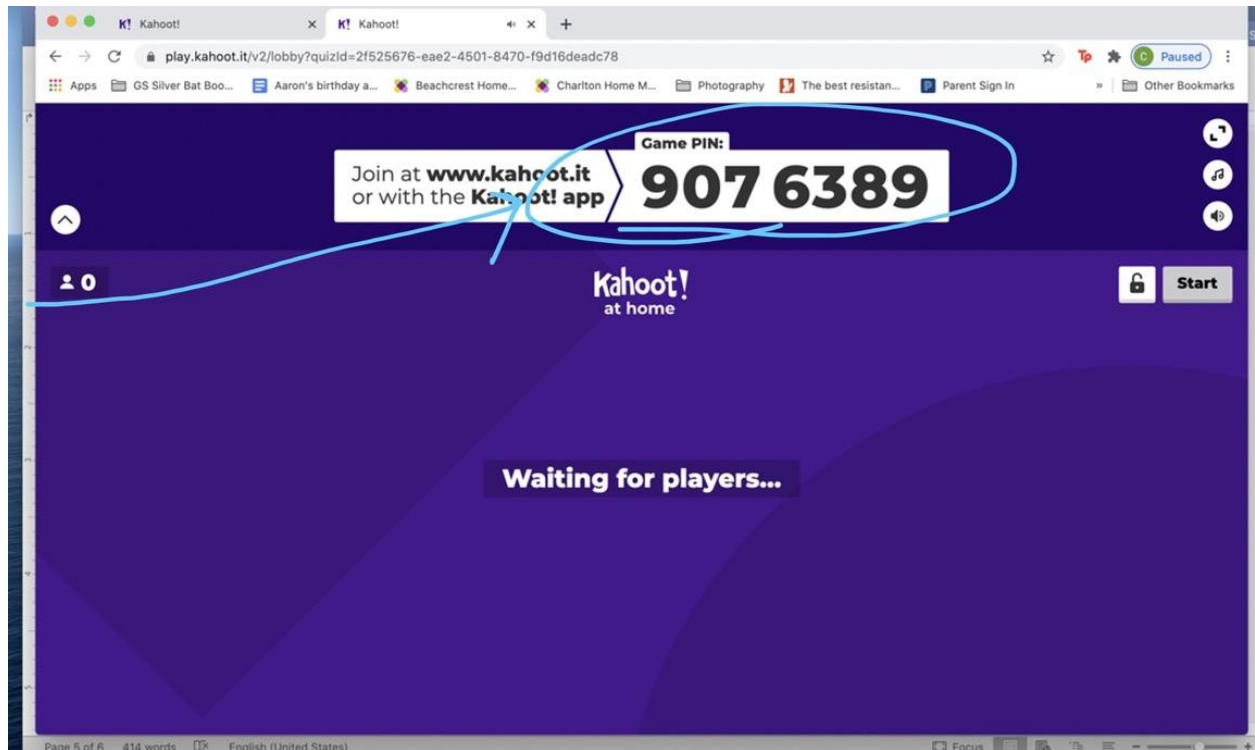

5. Choose Host from the pop-up

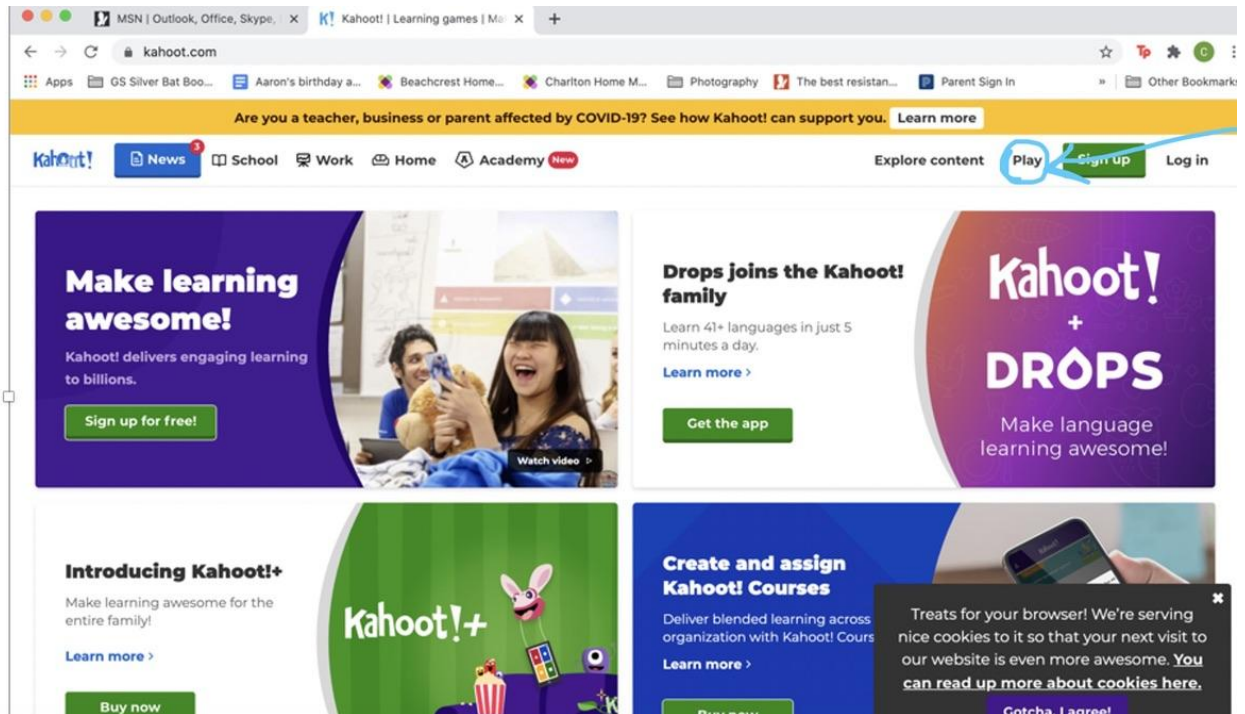

6. Set your Game Options: music? Nickname generator?
When you're done, click on Classic.

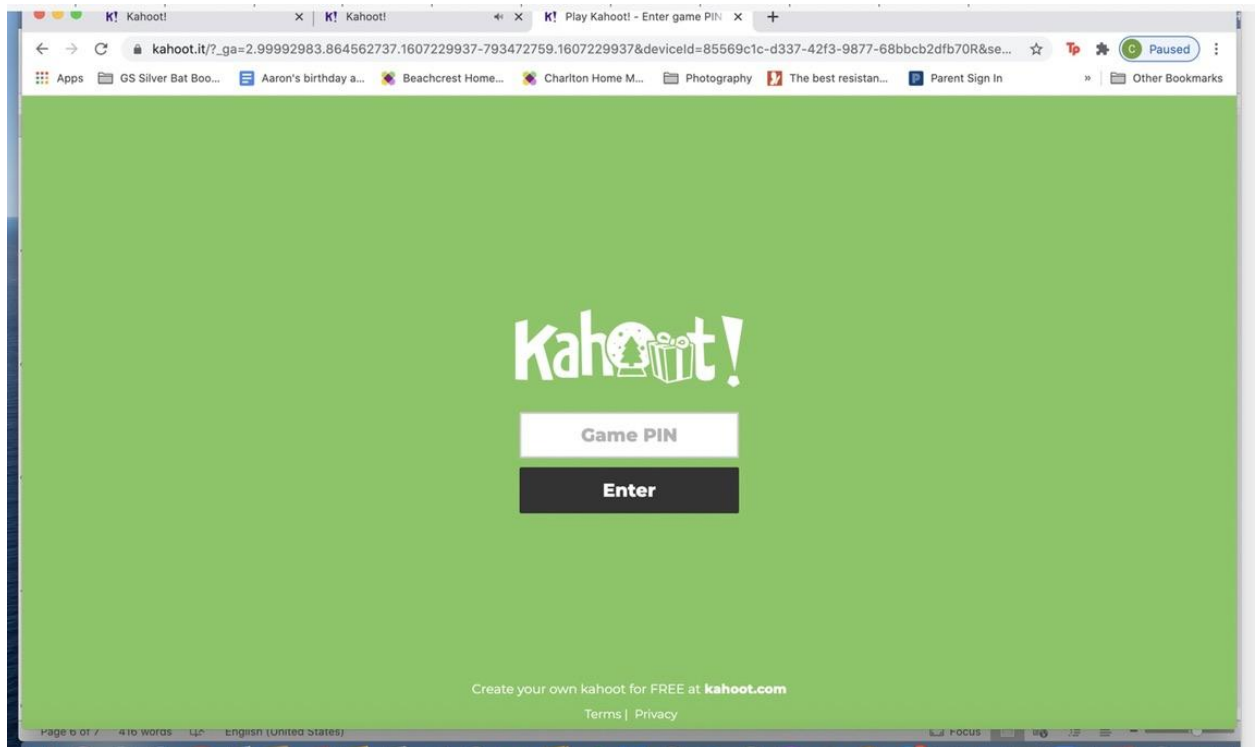

7. You'll be directed to a page with a pin number.

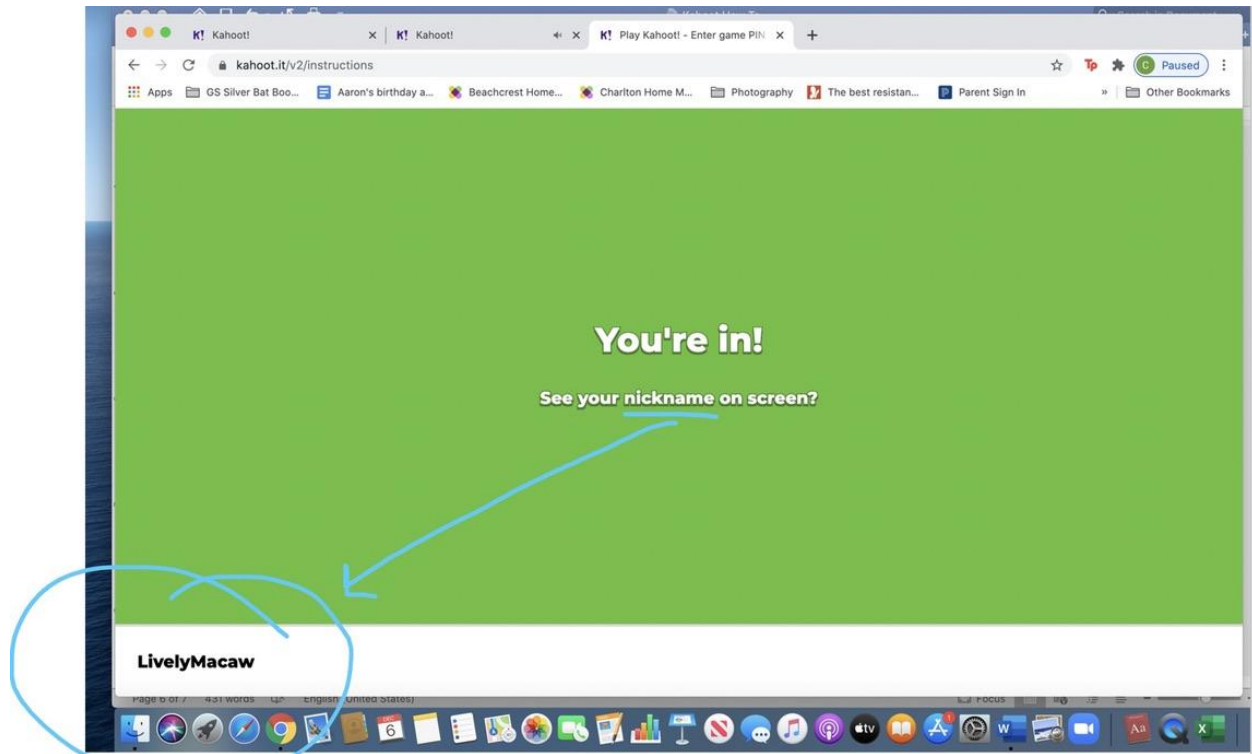

8. Give your guests a chance to go to kahoot.com
There's no need for them to have an account.
Your guests simply hit "Play" in the upper right corner of the screen.

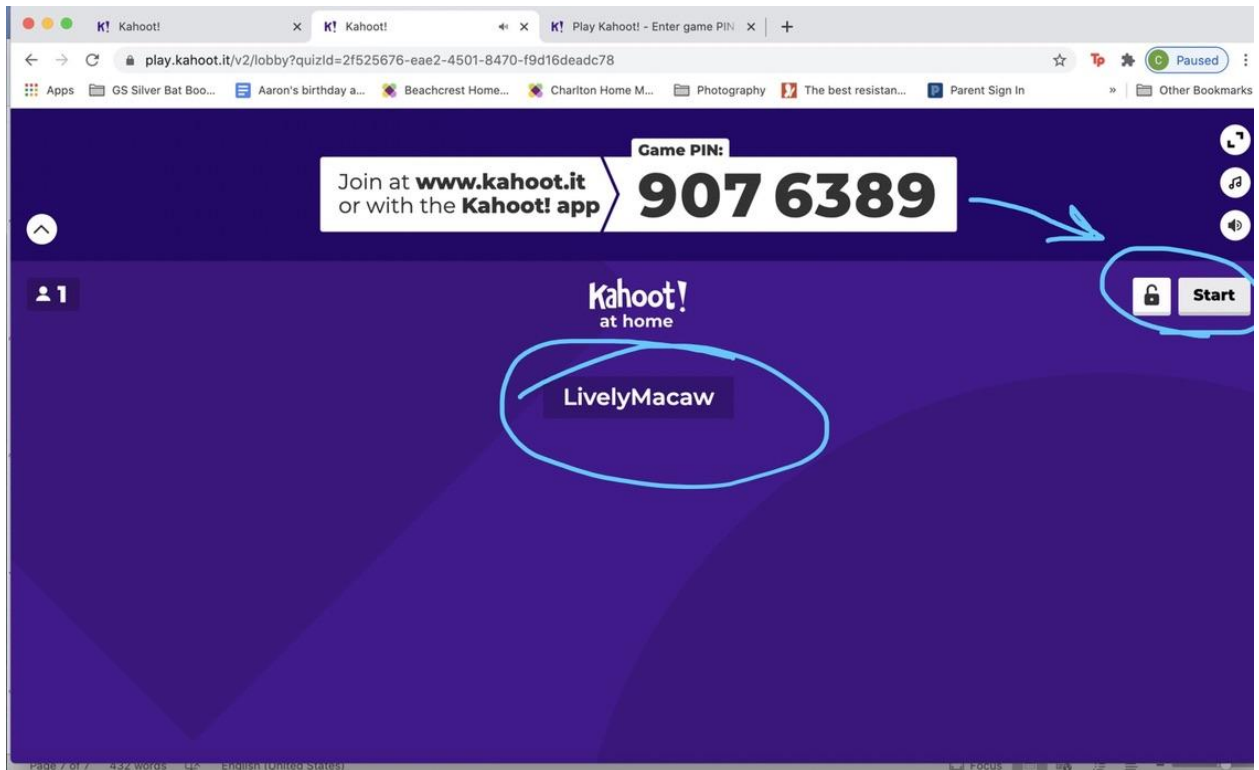

9. Your guests will be directed to a page with a prompt asking for a pin number.

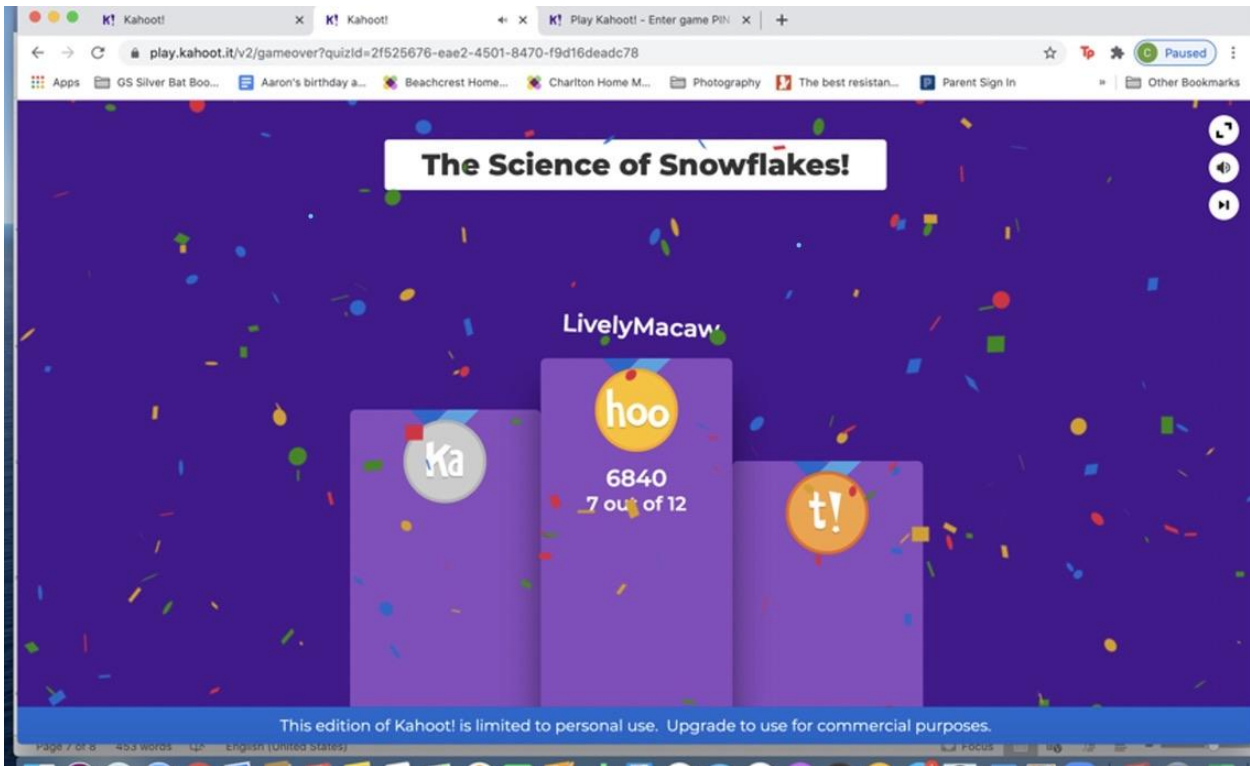

10. They will type in the pin you give from your hosted game, they will choose a nickname and then will be directed to a waiting screen

11. As soon as you are sure every guest has signed in with their nickname, click Start

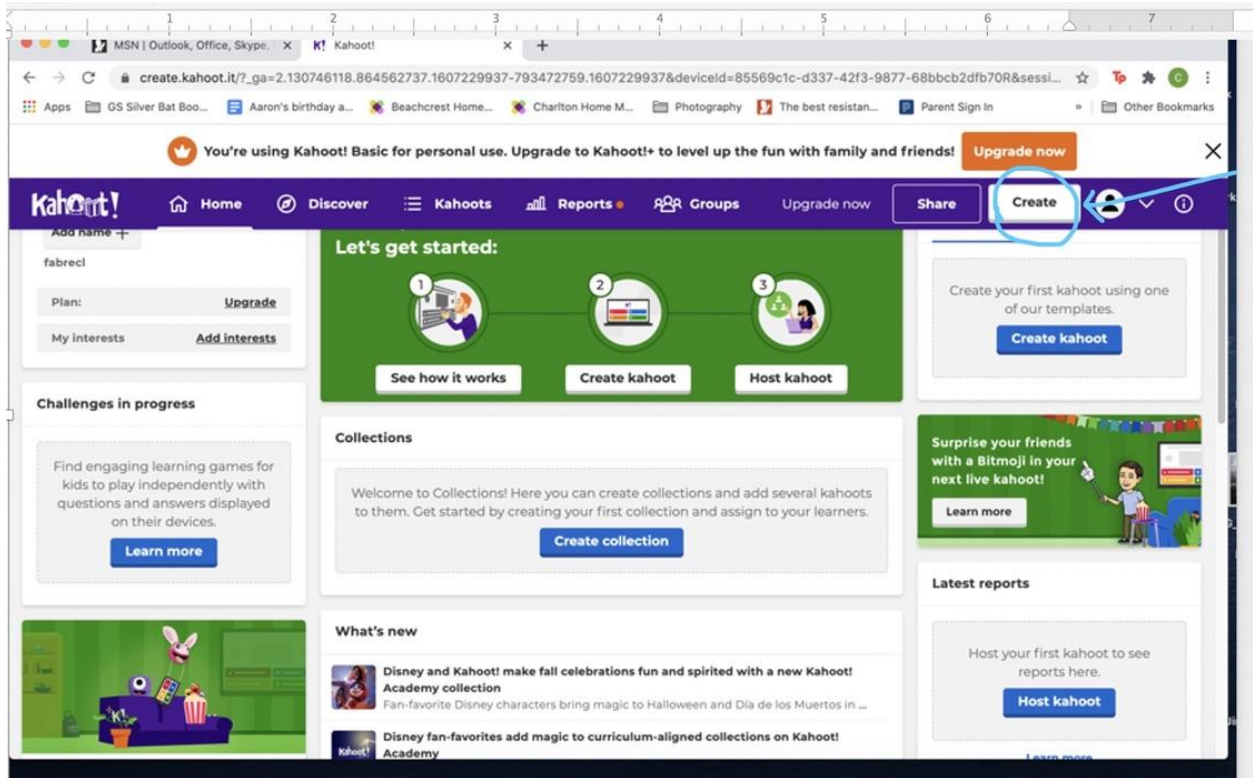

12. You and your guests can go through the quiz together.
Kahoot keeps score and announces the winner at the end.

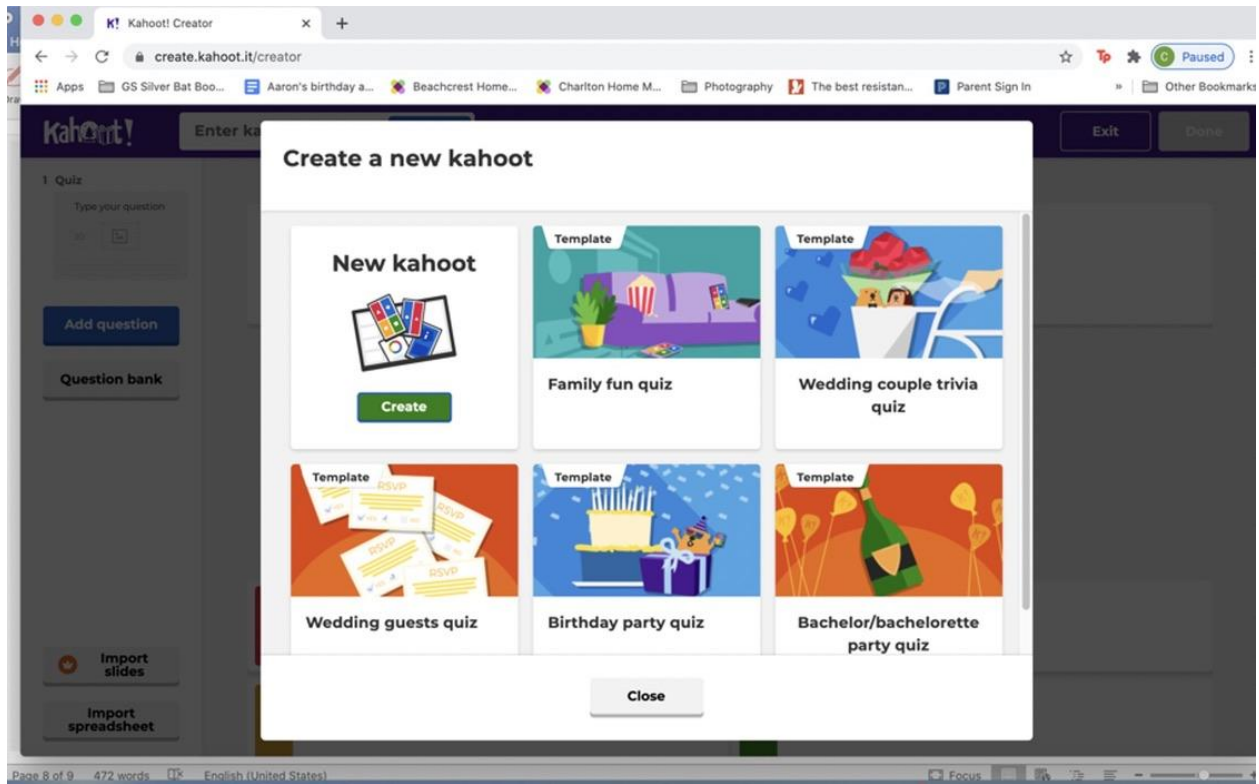

Option 2 – Create your own quiz!

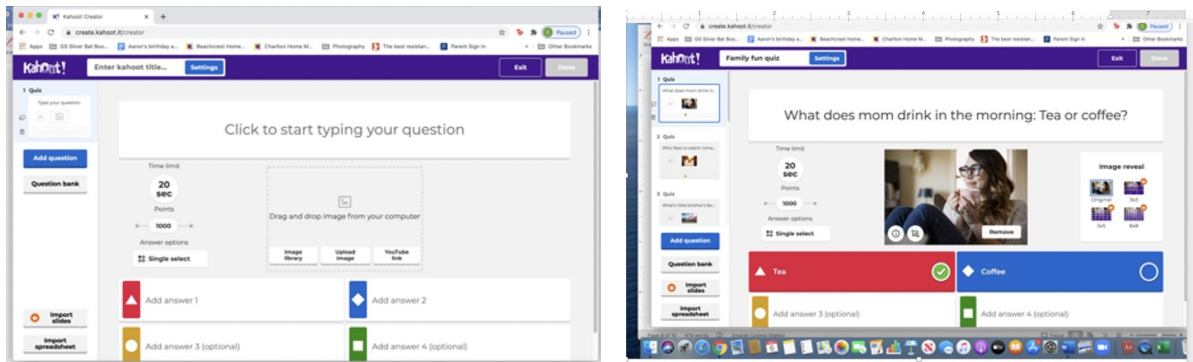

1. You can also choose to take a quick tutorial or just dive right in and click Create in upper right hand corner

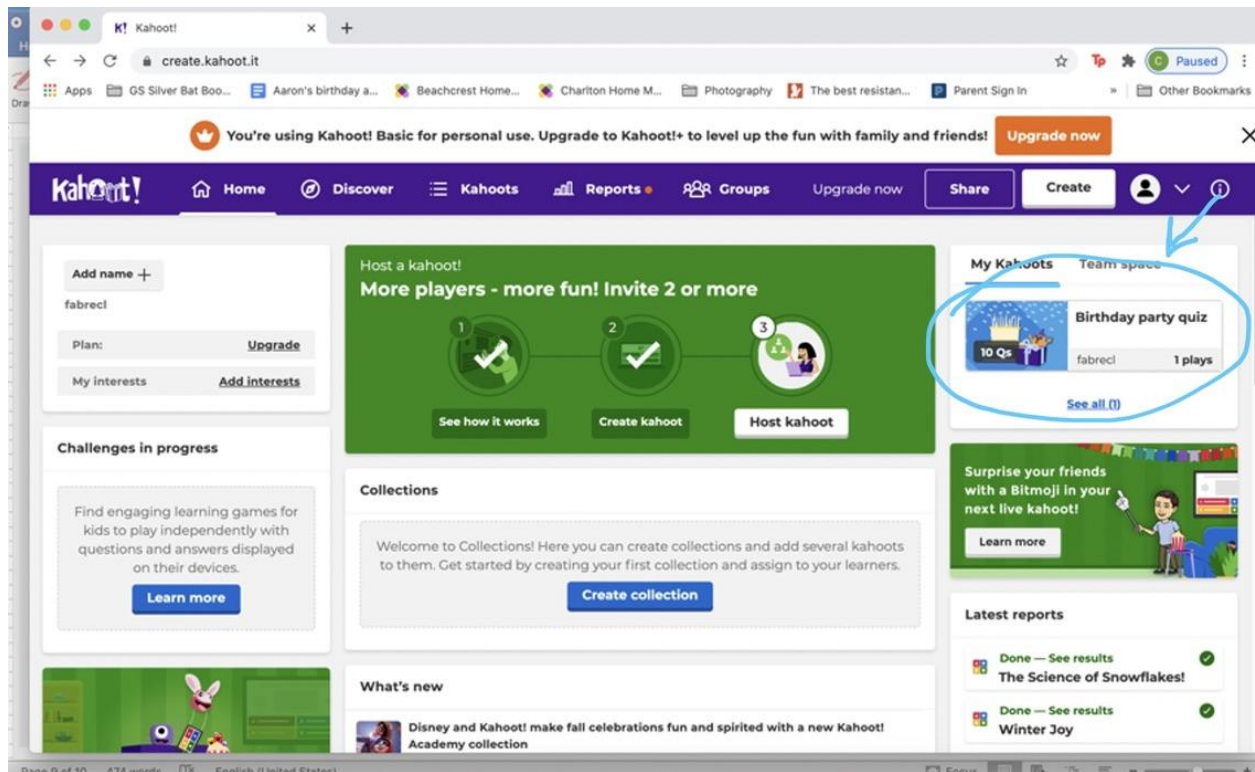

2. From the pop-up, choose a template, or create your own questions.

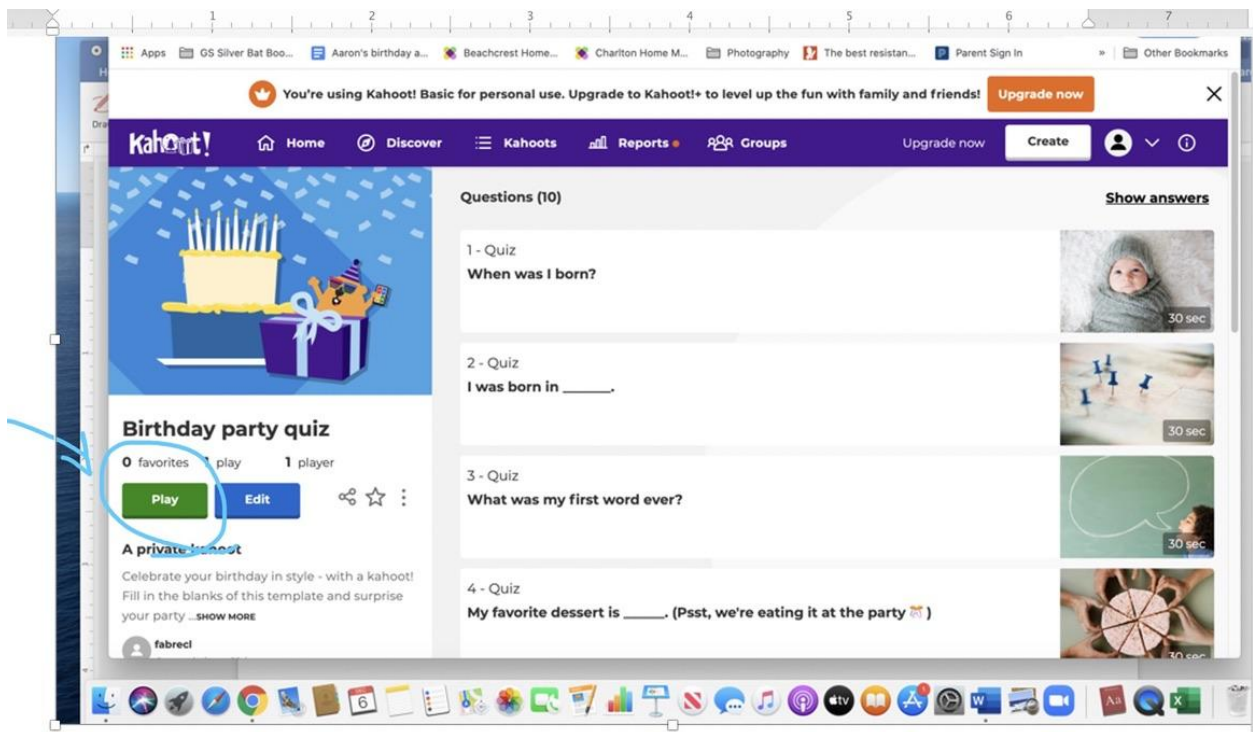

3. You can add photos from the Kahoot library, or you can upload your own photos to personalize your quiz

4. When you are done, it will be saved in your collection

5. Click on your new quiz and then follow the same directions from Option 1.

Follow the same instructions as those used when sharing an existing Kahoot quiz from the Kahoot collection:

- Click on Green Play button
- Choose Host from the pop-up
- Set your Game Options: music? Nickname generator?etc?
- When you're done, click on Classic
- You'll be directed to a page with a pin number.
- Give your guests a chance to log on to kahoot.com There's no need for them to have an account. Your guests simply hit "Play" in the upper right corner of the screen.
- They will be directed to a page with a prompt asking for a pin number.
- They will type in the pin you give from your hosted game
- As soon as you are sure every guest has signed in with their nickname, click Start
- Have fun!
