

Images in Tests

Test/Quizzes can include images to be included in the question, the answers, or both. When including images in tests keep in mind the following:

1. Images **must be placed in line** with either the question or the corresponding answer

Example:

(1) What country is pictured here?

2. Images must be in one of the following formats: **.jpg, .gif, .png, .pex, .emf**
3. Make sure there are **no transparent borders** around the image. In order to maintain the proper aspect ratio, transparent borders must be **cropped or equal on all four sides**. Failure to remove transparent borders may result in images appearing stretched in one direction.

4. Example of image in the question:

Which CTL staff member is assisting the skeleton?

- a. Tom Gillespie
- b. Stacey DeLoose
- c. Matt Smock
- *d. Scott Smith

5. Example of image in the answers:

Which CTL staff member is your liaison?

a. Tom Gillespie

b. Stacey DeLoose

c. Matt Smock

d. Scott Smith
