

Nominating for: Vice-President (Education)

My name is Max Galanti, and I am running to be your next Vice-President (Education) of the LSS for 2026-27. I am a Law/Business student and am currently serving as an Education (Engagement) Director on the 2026 Council, my second year on Council after having served as First Year Representative in 2025.

For two years, the LSS has played a major role in my university experience. This year, as Education Engagement Director I have had the pleasure to run the Buddy Project, host Speaker Series I this year, and coordinate the Education Subcom to successfully facilitate events with hundreds of attendees. Beyond Council, being a Law Launch leader, judging and competing in various competitions and attending panels across various topic areas has taught me that the value of a student-based society runs deeper than any elections or positions. The community that I sought, and which I now seek to develop, is built on *shared ambition, diversity and the willingness to reach out a hand to others.*

Across two years in the LSS, my mission has always been clear: **to open the doors for all UTS Law students to build our community.** With a fresh energy for new ideas and the motivation to build on our strong community, I want to push the LSS to be the *reliable, accessible, and supportive society* that the UTS Law community deserves for *all* students.

1. **Publications:** my aim is to create an *emerging culture of sharing real inspiration by students, for students*, whether that's expanding content on the fast-growing Bar podcast or the annual Law School Manual.
2. **Wellbeing:** my vision is to *promote and build on initiatives that hold the welfare of all our students* from first year to post-grad as a fundamental focus of the society – not just one-off days. I am excited to *lead engagement* with the real-world impacts felt by our peers through more cross-portfolio and inter-society projects.
3. **Engagement:** I endeavour *to build on the authentic support networks* of the Buddy Project through a brand-new Buddy Project Moot, or facilitating discussions on *real-world issues* affecting the legal profession and beyond at Speaker Series.

With two years of experience, I am confident that I can bring the experience and internal knowledge to the role, and I would be honoured to serve as your Vice-President (Education) for 2026-27 and I commit myself **to promoting connection and community at UTS Law.**
