- At the end of each Round Robin game, 4 points will be awarded for a win, 2 points for a draw and 0 points for a loss.
- If, at the end of the round robin, two teams are equal on points, then the winner of the face-to-face match will be declared the winner.

- If their face-to-face match was a draw, then the total percentage from all their games will be used to determine the winner. - If more than two teams are tied on points, percentage from the matches involving the other tied teams will be calculated to determine the winner.
