SCRIBD: <https://www.scribd.com/g/8urvjo>

Scribd is an incredible resource for ebooks and audiobooks. If you read a lot, or especially if you are a literature student, I cannot recommend getting this enough.

The value for your money is extraordinary, and if you use this link, you get 60 days for free! I think I get some perks from it as well, but I can't remember. But a 60-day free trial will have you hooked, for sure!

**The rest of these are not affiliate links, so if you can get the books*
*from a local, independent book store, I recommend doing that!**
