

In This Together
Dedicated to the people of Ukraine

Together
That's where we've always been.

Together
That's where we'll always be.

Together
Whether we like it or not.

Together
We are one.

But if we're in this Together then
Why do we hide?

If we're in this Together then
Why are we scared?

If we're in this Together then
Why are we sad?

If we're in this Together then
Why do we fight?

If we're in this Together then
Why do we feel left out?

If we're really in this Together then
Why do people feel alone?
