- #16 Michelle**
- #17 Zeak Rice**

Copied from ishareflower's (Lisa's) post on Houzz:

I'm going to post the main rules for this swap here so I know all will see.

Rule #1: This is the most important of all the rules.

When posting your wish list, BE SPECIFIC in what you want. Please don't post yellow cosmos or general anything. Take your time and research named varieties of yellow cosmos or whatever seed you may be looking for. The reason for this rule is that there are many members who are not interested in unnamed varieties. Please refrain from posting "any" when referring to a wanted type of seed.

We have 2 weeks to post our wish lists so we should all have time to do some homework for specific named varieties. (Last day to post or edit your wish list is January 16.)

Rule #2: Please do not send seeds that ARE NOT on someone's wish list. If seeds like this are sent, they will be considered as bonus seeds to be shared with

players in the swap.

Rule #3: Pack your seeds for others with their assigned player number in individual bags for each player. Send the amount of seeds in each packet that you would like to receive.

Rule #3a: Try to send seeds that are from 2016 or fresher. There are some players that don't mind seeds that are older. These players usually note that on their wish list.

Rule#4: Mail seeds on time with \$5 in cash or stamps. I use this money to return your seeds back to you. I return any change that is left over.

If seeds aren't mailed by the send by date, **January 31**, I'll have to return your seeds. This is because I'm working on return envelopes as packages come in and others are waiting for their return package.

#1 [ishareflowers \(Lisa\)](#)

Additions:

Dianthus Kensington

Echium 'Blue Bedder'

salpiglossis- black trumpets

Alana's agastache raspberry daiquiri

Leila's blue lacecap hydrangea

Balloon astra pink

foxglove primrose carousel- candy mountain

Tomatoes: Bella Rosa -- Comstock -- Daytona -- Defiant -- Fantom -- Perfect Flame

Tomatoes: These hybrid tomatoes even if seeds are old or collected from next generation: MERCED -- SAN REMO -- CABERNET (the large tomato, not the new cherry tomato with the same name)

#15 primrose1x3

Additions:

Agrimonia eupatoria (Agrimony)

Allium -

-- bunching onions

-- chives

-- shallots

Alysum saxatile (groundcover)

Anaphalis margaritacea (gray, stiff for wreaths)

Angelonia white (substitute for Gypsophila paniculata)

Anthriscus cerefolium (Chervil)

Artemisia abrotanum

Artemisia absinthium

Artemisia frigida

Carum carvi (Caraway)

Foeniculum vulgare with bronze leaves (Bronze Fennel)

Helichrysum italicum (syn Helichrysum angustifolium) (Curry Plant) tender per-z7

Heliotrope, white - other types welcome

Mesembryanthemum crystallinum (Ice Plant)

Pelargonium graveolens (Rose Scented Geranium)

**Pelargonium tomentosum (Peppermint Scented Geranium) my favorite
other species welcome**

Oreganum vulgare (Oregano) - fresh seed

Salvia officinalis

Sanguisorba minor (Salad Burnet)

Santolina chamaecyparissus (Lavender Cotton)

Sempervivum arachnoideum (Cobweb Leek)

Teucrium frutescens woolly/white

Thymus fragrantissimus (Orange Thyme)

Thymus vulgaris 'Narrow-leaf French'

Agapanthus, dwarf

Agastache 'Bolero'

Agastache mexicana (Mexican Giant Hyssop): Champagne – Sangria

Alcea rosea 'Queeny' salmon

Alcea rosea 'Majorette' Champagne

Angelica sylvestris 'Vicar's Mead'

#15

Aquilegia 'Black Barlow'

Arnica montana

Astilbe

Callistephus chinensis 'Florette Champagne'

Campanula punctata - prefer white, but other colors ok - the paler, the better

Canna - white, ivory or cream

Cephalaria alpina

Cerinthe major purpurascens

Cestrum nocturnum (night jasmine)

Centaurea cyanua 'Black Gem', Black Ball or similar

Cosmos 'Popsocks' white

Cydonia (Quince) - The Russians had a breeding program for this genus, and I seem to recall reading that one or a few lower growing cultivars made it over here.

Daucus carota 'Dara'

Elderberry - for medicinal purposes, not just for gawking

#15

Erigeron karvinskianus

Eschscholzia californica 'Pink Champagne'

Gilia capitata

Hawthorn - like the ones purportedly inhabited by Victorian faeries

Helenium autumnale - species, not gussied-up hybrid

Helianthus angustifolium

Heliopsis helianthoides var Scabra

Kalimeris incisa

Kirengeshoma

Lathyrus odoratus 'Nimbus'

Lavatera trimestris - white beauty, mont blanc - white

Lupine - dwarf, white

Lysimachia punctata - used to grow by a neighbor's 'gate from Oella's bygone mill-town days. It was almost as if time had stopped when we moved here in the '70s. Mrs. Johnson was my Foxfire University.

Malva moschata 'Alba' - or white cultivar

Melissa officinalis 'Aureum' (Golden Lemon Balm)

Mertensia virginica

#15

Myosotis sylvatica white

Nasturtium 'Black Velvet'

Oenothera pallida

Papaver rhoeas 'Amazing Grey'

Papaver orientale 'Pizzicata' mix

Phacelia grandiflora, purshii, tanacetifolia

Phopsis stylosa (Crosswort)

Platycodon 'Astra' - white, 6", semidouble (Balloon Flower)

Rabdiosa longituba (like sage, but ok with beastly dry shade)

Reseda odorata (Mignonette)

Rosa chinensis 'Angel Wings' or also known as dwarf fairy roses

Rosa glauca

Rosa suaveolens

Rosa villosa

#15

Salvia splendens - peach, orange or apricot - small for container or larger

Saturja montana (Winter Savory)

Shallot (available as seed)

Southernwood - Tangerina

Teucrium chamaedrys

Thyme "Orange"

Valeriana officinalis (Valerian) - fresh seed; can have low viability

Vinca (Catharanthus 'Ocean Black Moon')

Viola - white
