DIAN MEDICAL JOURNAL
FAKULTAS KEDOKTERAN
UNIVERSITAS DIAN NUSWANTORO
Volume. No.1, (Month) (Year)

The Title Goes Here with Each Initial Letter Capitalized

(Title of articles in English and Indonesia should describe the main content of manuscripts, be informative, concise, and not too wordy (12-15 words only), and does not contain formulas.)

Author's Name^{1*}, Author's Name², ³

(Full name without academic degrees and titles, written in capital letters. Manuscript written by groups needs to be supplemented by complete contact details. The author name should be accompanied by complete affiliation address, postal code number, telephone number and email address.)

INTRODUCTION

Explaining the background, problems, importance of research, brief literature review that relates directly to research or previous findings that need to be developed, and ended with a paragraph of research purposes. A balance must be kept between the pure and applied aspects of the subject.

METHOD

Make sure that work can be repeated according to the details provided. It contains technical information of the study presented clearly. Therefore, reader scan conduct research based on the techniques presented. Materials and equipment specifications are necessary. Approaches or procedures of study together with data analysis methods must be presented.

RESULTS AND DISCUSSIONS

Well-prepared tables and or figures must be of significant feature of this section, because they convey the major observations to readers. Any information provided in tables and figures should no longer be repeated in the text, but the text should focus on the importance of the principal findings of the study. In general, journal papers will contain three-seven figures and tables. Same data cannot be presented in the form of tables and figures. The results of the study are discussed to address the problem formulated, objectives and research hypotheses. It is higly suggested that discussion be focused on the why, how, what else of the research findings can happen and to extend to which the research findings can be applied to other relevant problems. Explain your your research contributions to science.

(example) Table 1. Characteristics of benign OMSK research subjects

Variable	N	%
Gender		
Man	11	25.6
Woman	32	74.4
Been sick for a long time		
< 5 tahun	24	55.8
≥ 5 tahun	19	44.2
Exposure to cigarette smoke		
Mild	42	97.7
moderately heavy	1	2.3
Rhinitis		
No	40	93.0
Yes	3	7.0
Jenis Bakteri (Infeksi)		
<i>Pseudomonas Aeruginosa</i>	23	53.5
<i>Non Pseudomonas Aeruginosa</i>	20	46.5
Degree of Otorrhea		
Mild	14	32.6
Moderate	12	27.9
Weight	17	39.5
Total	43	100.0

CONCLUSION

Conclusion should be withdrawn on the basis of research findings, formulated concerns and research purposes. Conclusion is presented in one paragraph without numerical form of expression. Explain your research contributions to science

ACKNOWLEDGEMENT

Contributors who are not mentioned as authors should be acknowledged, and their particular contribution should be described. All sources of funding for the work must be acknowledged, both the research funder and the grant number (if applicable) should be given for each source of funds

REFERENCES

Manuscripts are written by using standard citation application (Mendeley/Endnote/Zotero).

Vancouver reference style is required. More or less 80% references for literature reviews should be the

recent (up to date) journals published in the last 10 years, but the rest of 20 % reference scan be cited from research reports and or articles. Please citations related articles from Biosaintifik a journal.
