[5. Add-on on the storefront](#)

1. Overview

Alternative Checkout Complete Page add-on makes user's navigation easier, replacing checkout complete page with a new, more detailed, and convenient one. All the needed info is gathered in one place now, and the selected shipping address is shown on a zoomable Google map with street view. The add-on also displays receipt on the same page, allowing reordering and starting order discussion with admin right after checkout.

1.1 Support

This add-on is developed and published by Cart-Power, a CS-Cart official partner and developer. You are guaranteed a high-quality add-on supported by future versions. If you need help, please contact us via our [helpdesk system](#).

1.2 Compatibility

The add-on is compatible with CS-Cart **4.3.x - 4.17.X**

1.3 Buy now

Official add-on page:

<https://store.cart-power.com/cs-cart-alternative-checkout-complete-page-add-on.html>.

1.4 Release history

CS-Cart/ Multi-Vendor 4.10.1 - 4.17.X

Version 2.0 from 03 Jun 2021

[+] - Compatibility with Add-ons manager v1.8.

[+] - Ability to update the add-on via the CS-Cart Update Center.

[+] - Compatibility with CS-Cart and Multi-Vendor v. 4.12.x was added.

CS-Cart/ Multi-Vendor 4.3.1 - 4.9.3 ([Docs](#))

Version 1.0 from 19 Jul 2017

2. Installation

To simplify the installation, configuration, and upgrade of our add-ons, we have developed a special service add-on - Cart-Power Add-ons Manager. [Download the Cart-Power: Add-ons Manager](#) and follow the [installation instructions](#).

Once you install it, you will be able to:

1. [Check the List of the Add-ons Purchased for Your Domain](#)
2. [Install Add-ons](#)
3. [Turn on/off Add-ons](#)
4. [Find the Add-on Docs](#)
5. [Set up Add-ons](#)
6. [Upgrade Add-ons](#)
 - a. [Via Add-on Manager](#)
 - b. [Via the Upgrade Center](#)
 - c. [Manual Upgrade \(Add-on Reinstallation\)](#)
7. [Find out Add-on Version Information](#)
8. [Check the Status of the Upgrade Subscription](#)

If you have any issues installing or activating the add-on, please contact us: sales@cart-power.com

3. Add-on Settings

Navigate to **Add-ons > Manage add-ons > Cart-Power: Alternative checkout complete page > Settings:**

General tab

The screenshot shows the settings page for the 'Cart-Power: Alternative checkout complete page' add-on. The page has a breadcrumb trail at the top: 'Cart-Power: Alternative checkout complete page' with buttons for 'All', 'DEMO MA', and 'DEMO MA'. On the right, there are 'Settings' and 'Save' buttons. The main content area has three tabs: 'General' (selected), 'Settings', and 'Information'. Below these are three sub-tabs: 'General' (selected), 'Yandex', and 'Google'. The 'General' sub-tab contains the following fields: 'License key' with a text input and a note 'Find on the detailed page of your order'; 'Checkmark color' with a text input containing '#066bf0'; and 'API' with a dropdown menu showing 'Yandex' selected, with 'Yandex' and 'Google' as options. On the right sidebar, there is a 'Status' toggle set to 'ON', a 'Favorites' star icon, and a 'Version' field showing '2.0'.

- **License key** - license number from the order details page on store.cart-power.com.
- **Checkmark color** - here you can manually set the checkmark color in HEX format [#000000].
- **API** - select one of the services for the add-on work.

Yandex tab

The screenshot shows the 'Yandex' sub-tab selected. It contains an 'API Key' text input field. Below it, a note says 'Get the API key here:' followed by the URL <https://developer.tech.yandex.ru>.

- **API key** - a field for a unique API key received by the Yandex service. You can get an API key by following [this](https://developer.tech.yandex.ru) link.

Google tab

General

Yandex

Google

API Key:

Get the API key here:

<https://console.developers.google.com>

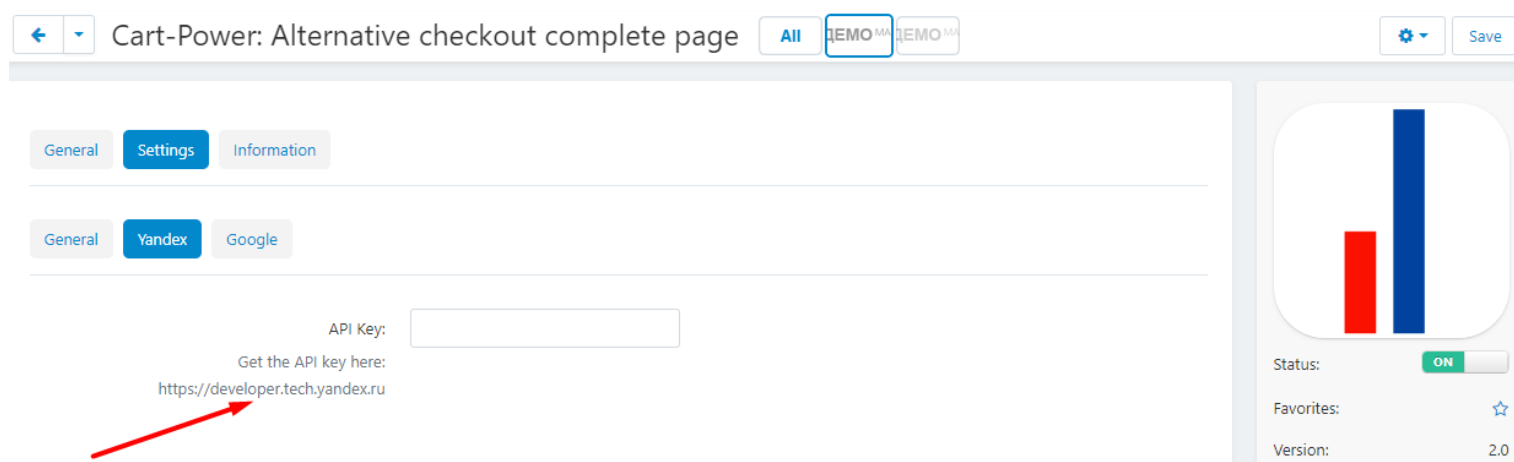

Google Map Zoom:

- **API key** - a field for a unique API key received by the Google service.
You can get an API key by following [this](#) link.
- **Google map Zoom** - set the Zoom of the Google map that will be displayed on the alternative checkout complete page.

4. Creating an API key

4.1 Yandex

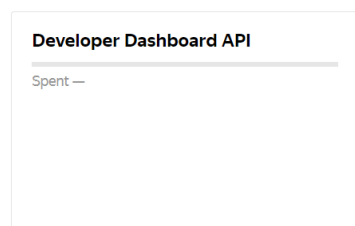

You can get an API key in one of the Yandex services, the [link](#) to the required page is given in the name of the setting:

Find the **Connect APIs** button:

Yandex Developer Dashboard

API interfaces

Connect APIs

In the appeared list of services, select the **JavaScript API and Geocoder HTTP API** option and fill in the form - your API key will be immediately ready for use. Copy it and paste it into the **API Key** field (**Yandex** tab). Save your settings.

4.2 Google

You can get an API key in one of the Google services, the [link](#) to the required page is given in the name of the setting:

The screenshot shows the 'Cart-Power: Alternative checkout complete page' settings. The 'Settings' tab is active, and the 'Google' sub-tab is selected. The 'API Key' field is empty, with a link below it: 'Get the API key here: <https://console.developers.google.com>'. A red arrow points to this link. The 'Google Map Zoom' field is also empty. On the right, there is a status bar with a bar chart icon, 'Status: ON', 'Favorites: ☆', and 'Version: 2.0'.

Please note that the API key you received will work only if you have created a project in the Google Maps Platform and provided it with payment details (for more details, [see here](#)):

Before you begin

Before you start using the Maps JavaScript API, you need a project with a billing account and the Maps JavaScript API enabled. To learn more, see [Set up in Cloud Console](#).

Creating a key is a rather simple and clear process:

To create an API key:

Console

Cloud SDK

1. Go to the **Google Maps Platform > Credentials** page.

[Go to the Credentials page](#) 

2. On the **Credentials** page, click **Create credentials > API key**.

The **API key created** dialog displays your newly created API key.

3. Click **Close**.

The new API key is listed on the **Credentials** page under **API keys**.

(Remember to restrict the API key before using it in production.)

Create an API key, copy and paste it into the **Google Maps API key** field. Save your settings.

5. Add-on on the storefront

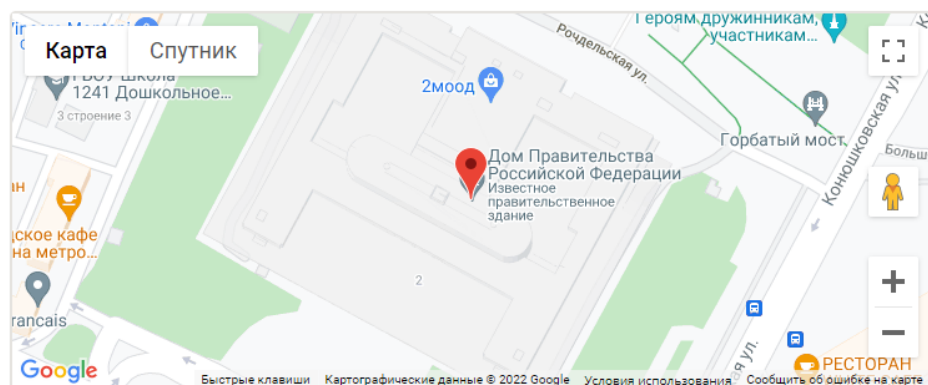

With a correctly configured add-on, the alternative checkout complete page will contain much more information, unlike the standard one:

[Home](#) / Your order has been received

Order #100

Thank you Petr!

Your order has been received

Congratulations! Your order has been successfully placed. [Order details](#)
