Email #1. Story about Arthur who made \$1562 “by accident”.

SL: He couldn’t believe he made \$1562 online by accident!

Arthur was on the edge of crying...

All he wanted was to get back from his job and cry on the pillow.

That’s how much Arthur **hated his 9-5 job**...

Every day, he was lying down in the middle of the night, thinking about how shitty his life is...

Waking up every single morning after a barely slept night, due to stress caused by the tasks he has to do in his job the next day.

Spending **11 hours at his job**, which left him only 6 hours in the day to make dinner, clean the home, and do other everyday tasks.

The feeling of fury consumed him entirely.

Arthur knew that if he kept doing what he was doing, he would be stuck in a job he hated.

He would have to work extremely hard, and feel sad and hopeless for five days every week, just to taste freedom for two days. This would happen for ten years.

The thought of living that way for a decade made his heart sink and his soul ache with despair.

Once, during a beautiful sunset, he was scrolling through social media (as always) and found something that made him very upset...

He saw that some young 23-year-old guy just made hundreds of dollars by using “Affiliate Marketing”.

“How can such a young guy make so much money from the internet?! He must be doing something illegal!” - He thought, but he clicked on the article anyway.

The same day, he signed up for Affiliate Course, which **generated him \$1562 after just 30 days.**

6 months later Artur is doing \$8k/month from Affiliate Marketing.

He was able to *leave his 9-5*, and he is finally waking up at whatever time he wants!

Plus he recently had some additional money and he flew with his family to sunny Mexico to lie on a beach, drink Mexican tequila, and do absolutely nothing...

You can also win as big as Arthur, all you need to do is work.

But 99% of affiliate marketers make 1 simple mistake while working that keeps them BROKE forever...

And I will talk about it in the next email.

To your success,
Ciaran

Email #2: Showing their roadblock + how they can overcome it

SL: The single reason why you can't make money online

Did you know that only 1% of affiliate marketers can achieve \$10k/month, because of the single thing?

Whether you do it or not, it will decide if you'll **make your first \$1000** leading up to even \$15k/month or...

Or you won't make ANY money ever and you'll stay in the 9-5 to your last days.

And no, it's not paying hundreds of dollars on ADs to promote your Affiliate Website.

Neither it's buying tens of courses from gurus and plenty of books to “learn”.

The #1 reason why you haven't yet made money is...

Wait! You will find out in a second, but first I wanted to let you know that I **didn't want to share that advice**. It's too overpowered if you use it correctly...

Believe me or not, you can EASILY achieve financial freedom, only if you are willing to avoid this mistake at all costs...

The problem with 99% of affiliate marketers is...

Learning, buying courses, and books for the whole time only to not do the most important thing...

Taking massive ACTION.

Now, most people will turn that email off, because they're lazy and want to achieve easy results and become rich quickly.

But if you stayed, you need to know that to become rich you need to actually put the work in.

Working is the only thing that will get you results.

And as I said, most people are lazy, they will close this email and go back to their boring life as a brokie, but...

Real men that will start working, will **achieve \$10k/month**. It's impossible to not, if you really work!

To your success,
Ciaran
