Personalized statement.

Businesses like yours (point, point, point) can easily generate at least 30% of revenue from just email.

After going through your website, socials, and emails, I have been drooling over some ways to increase your conversion rates.

But lets start with email. Say the word and I can get started ASAP on a sample email that I know can crush. If you like it, you can even send it to your email list. Would you like me to go ahead with this?

Hope to hear back soon.

P.S. Who am I? Lets just say, once you see the work I can do for you, I will become one of your greatest assets.

FROM CHASE DIAMOND:

X,

I know your time is valuable, so ill put this into 3 bullet points:

- Good personal thing
- Bad thing
- How I can help

You're leaving thousands of \$\$\$ on the table and im here to collect them for you.

Let's jump on a call and I can walk you through how I can help.

I'm more than happy to write up some samples for you as well.

Best,

Fraser
