What the Program Does:

© 2018 Matthew Lesko www.Free.Lesko.com/store LeskoFreeRadio@gmail.com

The SBDC Program is designed to deliver up-to-date counseling, training and technical assistance in all aspects of small business management. SBDC services include, but are not limited to, assisting small businesses with financial, marketing, production, organization, engineering and technical problems and feasibility studies. Special SBDC programs and economic development activities include international trade assistance, technical assistance, procurement assistance, venture capital formation and rural development. The SBDCs also make special efforts to reach minority members of socially and economically disadvantaged groups, veterans, women and the disabled. Assistance is provided to both current or potential small business owners. They also provide assistance to small businesses applying for Small Business Innovation and Research (SBIR) grants from federal agencies.

Eligibility :

Assistance from an SBDC is available to anyone interested in beginning a small business for the first time or improving or expanding an existing small business, who cannot afford the services of a private consultant.

Additional Information :

In addition to the SBDC Program, the SBA has a variety of other programs and services available. They include training and educational programs, advisory services, publications, financial programs and contract assistance. The agency also offers specialized programs for women business owners, minorities, veterans, international trade and rural development.

The SBA has offices located throughout the country. For the one nearest you, consult the telephone directory under "U.S. Government", or call the Small Business Answer Desk at 1-800-8-ASK-SBA or (202) 205-7064 (fax). For the hearing impaired, the TDD number is (202) 205-7333.

*****Money from Starbucks to Start Your Small Business with Your Coffee**

© 2018 Matthew Lesko www.Free.Lesko.com/store LeskoFreeRadio@gmail.com
The head of Starbucks got sick of giving money to politicians to try to make America better and decided to give money to struggling entrepreneurs instead.

Entrepreneurs are the ones who create jobs and he wants to help. He's kicking in \$5 Million and asking customers to kick in \$5 to create a job in America. All the money is going to Community Development Banks to hand out to low-income entrepreneurs. Community Development Banks aren't fat cats banks, they are for the little guy.

*****How to Legally Get Money from Your Congressman**

Intro Video

<https://vimeo.com/194992232>

© 2018 Matthew Lesko www.Free.Lesko.com/store LeskoFreeRadio@gmail.com

The office of your elected officials can be the best place to turn to get free help. They are in the best position to be aware of the free help and services that are available in your community as well as the state or national level. Your representatives also have the most power to help and have the biggest motive to help.

- Their Power... The government bureaucracy that provides money and services to the community relies on the elected officials for their money. You may pay the taxes but it is elected officials who “control the purse strings” and determine the budgets and salaries for government bureaucrats. These government agencies have special back door phone numbers to handle requests from elected officials

while you and I have to wait in line in the front door.

- Their Motive... Elected officials WANT to help you because if they are able to make a phone call and get you the help you need, you will vote for this official no matter how many sex scandals they have.

To find you elected official put in your zip code here:

https://ballotpedia.org/Who_represents_me%3F

To find local officials see:

Your search will show the elected officials below with hotlinks to their websites.
