

Privacy Policy

Effective Date: March 13, 2026

App: **MarathonDex**

Contact: aistemsolutions@gmail.com

1. Introduction

MarathonDex ("the App") is a paid companion application for the video game Marathon, developed and published by us. This Privacy Policy describes how we handle information when you use our App. We respect your privacy and are committed to being fully transparent about our data practices.

Note: MarathonDex is an independent fan-made companion app and is not affiliated with, endorsed by, sponsored by, or in any way officially connected with Bungie, Inc. Marathon and all related names, logos, and marks are trademarks of Bungie, Inc.

2. Information We Collect

We do not collect, store, or process any personal data whatsoever. Specifically:

- We do not require account creation, registration, or login.
- We do not collect names, email addresses, phone numbers, or mailing addresses.
- We do not collect device identifiers, IP addresses, or location data.
- We do not collect usage statistics, analytics, or behavioral data.
- We do not use cookies, pixels, web beacons, or any tracking technologies.

3. How the App Works

The App fetches publicly available game reference data (such as weapons, maps, items, runners, quests, and other game content) from our servers at api.marathondex.com. These requests are standard HTTPS calls that do not include any user-identifying information. No personal data is transmitted to or from our servers at any point.

4. Local Data Storage

Any preferences, settings, or cached data are stored exclusively on your device using standard iOS storage mechanisms. This data never leaves your device and is not accessible to us. Uninstalling the App will remove all locally stored data.

5. Third-Party Services

The App does not integrate any third-party analytics tools (such as Google Analytics, Firebase, or Mixpanel), advertising networks, or social media SDKs. The only third party involved is Apple, which processes your App purchase through the App Store. Apple's handling of your payment and account information is governed by Apple's own Privacy Policy.

6. Children's Privacy

Since we do not collect any personal data from any user of any age, the App is compliant with the Children's Online Privacy Protection Act (COPPA) and similar regulations. We do not knowingly collect information from children under 13 or any other age group.

7. Data Sharing and Disclosure

We do not sell, trade, rent, or otherwise share any user data with any third parties, because we do not collect any user data in the first place.

8. Your Rights

Under regulations such as GDPR, CCPA, and similar privacy laws, you have rights regarding your personal data including the right to access, correct, delete, and port your data. Since we do not collect or store any personal data, there is no data for us to provide, modify, or delete. If you have any concerns, you are welcome to contact us.

9. Security

All communication between the App and our servers is encrypted using HTTPS/TLS. Since we do not collect or store personal data, there is no risk of personal data breach from our services.

10. Changes to This Policy

We may update this Privacy Policy from time to time. Any changes will be reflected by updating the effective date at the top of this document. We encourage you to review this policy periodically. Continued use of the App after changes constitutes acceptance of the updated policy.

11. Contact Us
