Quick Recommendations

- Best overall game feel → Nitro Type or TypeRacer
- Best for serious improvement → Monkeytype or Keybr
- Best for beginners → TypingClub or Typing.com
- Best for speed tests → 10FastFingers

How to Improve Faster

1. Practice 10–15 minutes every day.
2. Focus on accuracy first, then speed.
3. Use proper finger placement (home row).
4. Try to type without looking at the keyboard.

All websites listed above are completely free and work in your browser. No download required.
