ENGINE SOUNDS FOR GTA 5

Personal Best Engine Sounds for most police vehicles. The below 5 are my usual go to if I just want the vehicles to come close to sounding correct in game.

Crown Vic - POLICE, TORNADO
Tahoe - FBI2 or BALLER
FPIU - GRESLEY, INTRUDER, WINDSOR
Charger - WINDSOR, , REBLA, BUFFALO (slightly beefier)
Camaro - BULLET or DOMINATOR
Caprice - TORNADO (Added this thanks to Skeetermcg)

Examples for Audio Hashes

<audioNameHash>WINDSOR</audioNameHash>

<audioNameHash>REBLA</audioNameHash> (Found this one recently in May 2024)

<audioNameHash>BULLET</audioNameHash>

<audioNameHash>DOMINATOR</audioNameHash>

Example of Normal Default Audio Hash to return vehicle audio to normal

<audioNameHash />

Vehicle Meta File Pathway - Grand Theft Auto V\mods\update\update.rpf\common\data\levels\gta5

(REMEMBER TO ALWAYS USE YOUR MODS FOLDER AS MISSPELLING AN AUDIO HASH CAN CAUSE GAME CRASHING. KEEP YOUR ORIGINAL IN A FOLDER TO EASILY REPLACE A MODIFIED VEHICLE.META FILE)

For those that really want to fine tune their police vehicles, OR perhaps you installed a non-police vehicle and you really want the vehicle to sound unique, the below list is for you! Feel free to explore and experiment and happy modding!

R4 petrol engines

ASEA

BIFTA

BLISTA - Lower revs

BLISTA2 - Same as BLISTA3

BLISTA3 - Same as BLISTA2

BRIOSO - Higher revving 4cyl

KURUMA - Japanese modern daily 4cyl

OMNIS

ORACLE

B4 petrol engines

SULTANRS - Subaru boxer engine.

R5 petrol engines

OSIRIS - Audi R5 AAN/ABY/ADU & etc. engines.

B6 petrol engines

COMET - Porsche boxer engine.

R6 petrol engines

CASCO - Classic sports cars. In theory it would fit some older BMW-s as well.

ELEGY - Japanese sporty R6. RB26DETT! Or simply said - Skyline R34!

FQ2

GRESLEY

INSURGENT - Lower revs, better for trucks/vans, Chevrolet Astro?

MESA

PEYOTE

RHAPSODY

SENTINEL - BMW! Especially older models like E34, E36 325i/328i

SUPERD

TECHNICAL

V6 petrol engines

BALLER

HABANERO - V6 engine with **SUPERCHARGER!**

INTRUDER

MOONBEAM2

PEYOTE

PRIMO2

RADIUS

ROCOTO - Higher revving.

SERRANO

SULTAN - Higher revving.

ZION

WARRENER - Older V6.

V10 petrol engines

BANSHEE - American V10, higher revving/louder. Dodge Viper!

BANSHEE2

FELON

JACKAL - Lower revving/more silent.

NINEF - Germanese V10, as the car properly looks like R8 V10

V12 petrol engines

BESTIA - Higher revving V12.

BODHI - Beautiful bit older V12 engine sound, but with "diesel" idle

BRAWLER - ?

BUFFALO

CHEETAH - Higher revving V12, ideal for many Ferraris and other supercars.

DUBSTA2

GUARDIAN - Older V12, but with "diesel" idle

NINEF2

RUMPO2

SCHAFTER4/SCHAFTER6 - Modern V12 engine, suits best for luxury sedans. SCHAFTER6 is the same.

TYRUS - Racecar V12, powerful stuff!

W16 petrol engines

ADDER - Powerful W16. Bugatti Veyron!

Electric engines

Nothing to write here, silent hill!

SURGE

VOLTIC

Diesel engines

Diesel engines are strange, they are mostly quite bad, basically there aint any modern turbodiesel sounds (Audi,BMW,MB etc.)

CAMPER - I like this the best from the rest.

DLOADER

GBURRITO2

JOURNEY

V8 petrol engines

There are quite a lot of V8-s in this game. I try to categorize them, using common sense based on a lifelong interest in cars.

Straight-pipe, raw - Mostly used on older muscle cars. I think it is one of the most realistic engine sounds to use in game, when to put it on an actual muscle car or car with straight-pipes (catless).

DUKES

GAUNTLET - bit less louder/more muffled sound

HOTKNIFE

MAMBA -

PHOENIX

PICADOR - bit less louder/more muffled sound

RUINER

SABRE

VIGERO

Straight-pipe, raw (extreme Harley Davidson/tractor sound) - Basically the same, as above, but these are already tractor sounds, which You will meet on several modern era high end high porsepower tuned luxury cars.

DOMINATOR - It may sound little different, more "higher-revving".

DUKES2

MARSHALL - My personal favourite of the list, fits **godly** onto the Brabus 850 S Coupe.

MONSTER - bit more muffled.

FACTION3 - Quite similar to MARSHALL, great sound though!

SLAMVAN - more raw, than SLAMVAN3

SLAMVAN3

Lower-revving "calm" V8 - most ordinary stock V8 sound ever? These are very popular on common stock daily driver V8-s, not at all such raw, as the upper ones.

BALLER3

BLADE - although, the variation is probably the same as on some others in the list (VOODOO, if not mistaken), this is the most essential in the list for me.

BULLET - more quiet/lower rev

CHINO

CHINO2

CONTENDER - more quiet/lower rev

DUNE

LYNX - more higher rev/louder

MANANA

PATRIOT - more quiet/lower rev

STALLION

TAMPA

TORNADO

VOODOO

VOODOO2

YOUGA2 - more quiet/lower rev
