OTHERS*

Other types of commissions such as Chat Stickers, Comic pages, Damikuras designs, or any other art not described should be considered and priced based on the idea and characteristics of it.

Clarifications

- Complex characters or poses: characters with a lot of markings, wings or complex bodies, or poses that require more work would be considered more expensive as may require more time
- More characters, Extra characters are limited to a total of 3 characters, if there are more it will be discussed for the particular commission
- Simple Backgrounds, backgrounds with no props or objects and with basic perspective
- Complex Backgrounds, Backgrounds with perspective, objects, layers, and elements, the price depends on the scene
- Prices can change with time.

NSFW (+18)

- Is possible to make adult artwork without any more cost than a clean artwork
- Ask first since there are some scenes and topics that I will probably not draw

The process

1. You need to read and accept the ToS, select what you want to commission and contact me.
2. For the commission you must say what you want, what idea you have and send the respective references of the characters. and any other information, such as character personality or mood can be really helpful.
3. I will read it and if I agree we will establish the cost.
4. The payment is done via Invoice, when payment is done the art process begins.
5. you will receive a single or multiple sketches and based on it make comments, change things and construct the idea, this is the most important part and is where you can make most of the changes.
6. When the sketch is approved, I will continue working on the artwork sending you updates at every part of the process.
7. When the image is finished, you will send the second part of the price and then I will send you the final artwork files.
8. Enjoy your artwork :3

Possible Questions

- Why are the prices so cheap / expensive?
Well I'm working and creating art, so I try to give a good and fair price based on my skills and that have a value, the time I spend in images and my work. If you think they are expensive, there are other artists and options out there with a lot of different options that could fit you better.
- Why don't you make some sort of drawings or topics?
Principally because I don't feel comfortable with that, sometimes with the idea or because the difficulty level of the image is really high and I don't think I can satisfy or make a good piece of artwork.
- How much time can you take to finish a commission?
I try to make it as fast as I can, usually it will be around 1 or 2 weeks, but can be more based on each commission characteristic. Usually depends on the complexity of the commission, if there are other people on the queue and the time that I can spend in them.
If you need a piece of art on a specific deadline, please explain that in the message and we can discuss it.
- Any other rules or information that I need to know?
Yes, you can find more info in my ToS

haring
- Why so many texts and rules and things?
I want to leave everything clear, so neither the commissioner nor the artist have inconveniences or problems with the commission.
