

Art-er Limits 2016: What's When - Schedule by Date/Time

The Art-er Limits Fringe Festival

This year the festival features a wide range of artistic experiences and several new elements. Art-er Limits provides both the opportunity to connect with talented artists and performers and a chance to be a part of the creative process. The festival offers experiences that allow you to learn, talk and connect with artists, giving you insight into the training, work and effort behind the performance.

The festival is created by artists who have proposed events, performances and exhibits, and it offers short showcases that allow you to discover and sample a wide range of art. If you discover a band you love, artwork that excites you, or a performance that is engaging, we invite you to share your discovery.

Be respectful of the environment, performance and subject matter but help these artists expand who knows about their work. Snap a picture, stream a short segment of the performance, follow them on social media. Share what you love and have experienced.

Be part of the team that celebrates Mississippi artists.
