SCSC Charter Contract 2031

- <https://scsc.georgia.gov/document/charter-contracts/meliora-school-opening-fall-2026/download>

Mission Specific Goal Contractual performance target (9d)

- **Interdisciplinary learning:** Beginning in Year 1, 90% of students complete at least one annual project integrating entrepreneurship and computer science.
- **Future9 Competencies:** 80% of students demonstrate measurable annual growth in at least one Future9 competency, documented through Life Navigator portfolios.
- **Community Engagement:** The school hosts at least four community engagement events annually, tracking participation through sign-ins and surveys.

SCSC Comprehensive Performance Framework (9a)

The SCSC's official accountability tool is the Comprehensive Performance Framework (CPF), which assesses school performance in three critical areas:

1. **Academic Performance** in terms of achievement and growth across a variety of measures that are directly compared to a weighted average of the traditional district schools that charter school students would otherwise attend.
2. **Financial Performance** in terms of near-term viability and long-term sustainability.
3. **Operational Performance** as it relates to governance and legal compliance.

25/26 CPF *Updated 6/2026 -

GADOE CLIP: Georgia's Consolidated LEA Improvement Plan

CLIP stands for Consolidated LEA Improvement Plan. In Georgia, it is a comprehensive planning document that explains how a school district or eligible charter school system will identify student needs, establish improvement priorities, use federal education funds, and evaluate whether its strategies are working.

1. Academic improvement: How the school identifies and addresses student learning needs.
2. Federal funding and compliance: How eligible federal resources are used to support identified needs.
3. Governance and accountability: How leadership and the governing board oversee improvement priorities and measurable results.
