Melissa Dashields, Special Education

Greetings and Salutations....

My name is Kevin J.D. Wilson, the proud Assistant Principal of Ellwood Elementary. I'm more than excited to join such a rich and rigorous school so that scholars can get the most out of their education.

As I partner with Principal Davies, I believe I demonstrate qualities commensurate with faculty and staff who are serious about providing the scholars at Ellwood with the type of education that will impact their lives. Qualities such as the desire to expand a deeper knowledge base of the new ELA/Math curriculums that would improve student outcomes, the desire to partner with parents and teachers to ensure that scholars receive appropriately rigorous instruction, and the desire to promote and maintain a healthy schoolwide climate/culture.

In this leadership role, I plan to use transformational leadership to impact student outcomes in order to close the achievement gap. My focus is to ensure that all students are engaged in instructional learning and have full access to their education. Ultimately, I believe that engaging families and community stakeholders is vitally important to student success. My goal is to help Ellwood Elementary to create and maintain boundaries that strive beyond excellence.

The opportunity to offer my skills to Ellwood Elementary is of great interest to me. I feel it would be a rewarding experience for all parties involved. Thank you in advance for receiving me as a part of your school leadership as I'm eager to contribute to the lives of our scholars. #proudtobeagrizzle

In Service,

Kevin Wilson, M.S., M.A.
