Pacing of athletes (pacing is defined as the practice running in front of or alongside another competitor) is strictly prohibited.

Section 2.13 OBSTACLE FAILURE TYPES AND PENALTIES

CATEGORY	DESCRIPTION	PENALTY FOR FAILURE
Mandatory Obstacle	Obstacles that must be completed to progress in the race.	Disqualification (DQ) from the event (OR moved to Open Category).
Multiple Attempt (Pass/Fail)	Obstacles that can be attempted multiple times until successful or a penalty is applied.	10 burpees or penalty loop if not completed.
Single Attempt (Pass/Fail)	Obstacles where only one attempt is allowed (as defined per obstacle rules). Once committed, it must be completed or a penalty is applied.	10 burpees or penalty loop if not completed.

- (a) Unless otherwise noted in the following rule book, during pre-race instructions, or by the specific volunteer at an obstacle, all Competitors are given one attempt to complete each obstacle. What defines “an attempt” is outlined within the race specific rules that follow. However, typically once both feet have left the ground you will be considered committed to that obstacle and must complete it or take the penalty.
- (b) Any verbal or written race day instructions given in pre-race emails, pre-race briefings, or by volunteers and/or race marshals will supersede rules in this book.
- (c) Penalty for pass/fail obstacles is 10 burpees or a marked out penalty loop section.
 - (i) 30 seconds added to time for every missed burpee
 - (ii) Automatic disqualification for anything under 5 burpees
 - (iii) Penalty loops will be at least 50 meters in length, clearly marked, and must be completed immediately after the obstacle failure. Once the loop is completed, the racer may continue to progress in the race.
- (d) Burpees must be completed within the designated burpee zone. Burpees completed outside of the zone will not count toward the 10 burpees penalty.
- (e) Competitors must count their burpees aloud and may be asked to repeat burpees on the spot, if the judge or volunteer determines the Competitor is not performing correct burpees, while auditing the penalty.
- (f) All obstacles must be attempted. An attempt, at a minimum, is defined by touching the obstacle. In other cases it may include entering the water or other difficult terrain, to get to the obstacle itself. Such terrain cannot be bypassed via penalty burpees, unless advised as acceptable in pre-race briefings or by race day staff/volunteers.
- (g) Competitors may only strike bells present on ANY obstacle using their arms and hands, or any other part of their body above their chest. Using feet, legs, or knees to “kick” the bell is not allowed. Violation of this rule will be considered an obstacle failure. The competitor will not be allowed to retry the obstacle, and must complete 10 burpees or the mandatory penalty

for that obstacle. After kicking the bell, leaving the penalty zone before completing the penalty is an immediate disqualification.

Section 2.14 TIME PENALTIES

- (a)** The protest period for timing, results, disqualification, penalty issues and the like, ends 15 minutes prior to the award ceremony for each event. Any protest a Competitor may have with penalties, or issues that affect the race outcome, must be brought to the Head Official during this time period. In some circumstances Head Officials may extend protest periods beyond the award ceremony, at their discretion.
- (b)** Prior to the results being considered final, a camera review may be completed if cameras are utilized for the event. Final results may not be posted on-site immediately, pending official review. Competitors may check with the Head Official and/or posted board in Timing/ Results tent to be sure they were not allocated a penalty, so they have time to protest that penalty, review video records, or consult the official who allocated the infraction.
- (c)** The Race Official reserves the right to continue penalty resolution post-event for those not present, or who are unavailable during the event. Parents/Guardians can assist their child in this matter.
- (d)** It is up to the Competitor to determine if they were allocated a penalty during the event and protest it during the allowed protest period.
- (e)** Spartan Race reserves the right to change the standings or race day decisions indefinitely after the event, in cases of intentional or malicious breaking of the rules, including but not limited to, failing of a drug test administered by Spartan Race or a third party as designated by Spartan Race.

 - (i)** These are awarded to the top 3 in each category

- (ii) Awards will vary and are subject to change.

Section 2.16 TIMING

The winner of each race is determined by the top times to cross the finish line of a Competitive heat, based on their initial start time. Races may be timed either via a digital or manual timing system.

Where a digital timing system is being used:

- (a) Competitor times will be validated by RFID timing chips. It is the Competitor's responsibility to assure the chip is securely fastened and worn across all checkpoints on course. Missing chip times will be subject to independent review, resulting in Competitors being considered for disqualification, at the discretion of the Race Director and Head Official.
- (b) If a Competitor's timing chip is lost, it must be immediately reported to Timing/Results Staff upon crossing the finish. If a Competitor's timing chip is lost or a Checkpoint is not read by RFID, course marshals may also be used to validate a Competitor's "route" on course.

Where a manual timing system is being used:

- A. Competitor details and times will be recorded manually at the finish line.
- B. The competitor is responsible for ensuring that these details are recorded promptly and accurately.
