

The Path to getting everyone to high engagement, deep Co-creation Zone

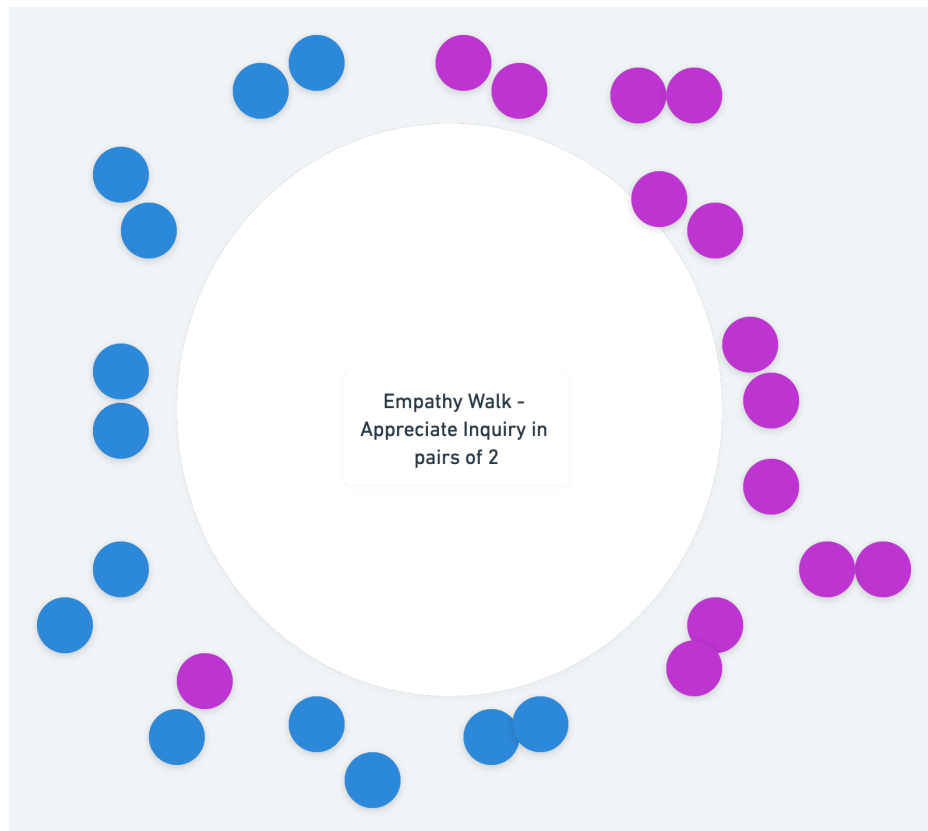

First 10 minutes - how people sat based on usual gram sabha meeting structure

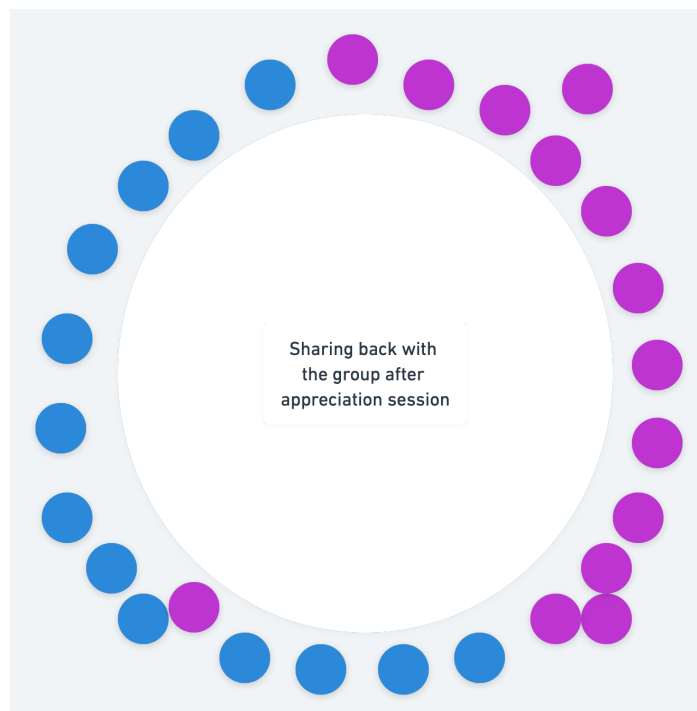

Next disrupt the group and reorder so they can face and see each other..

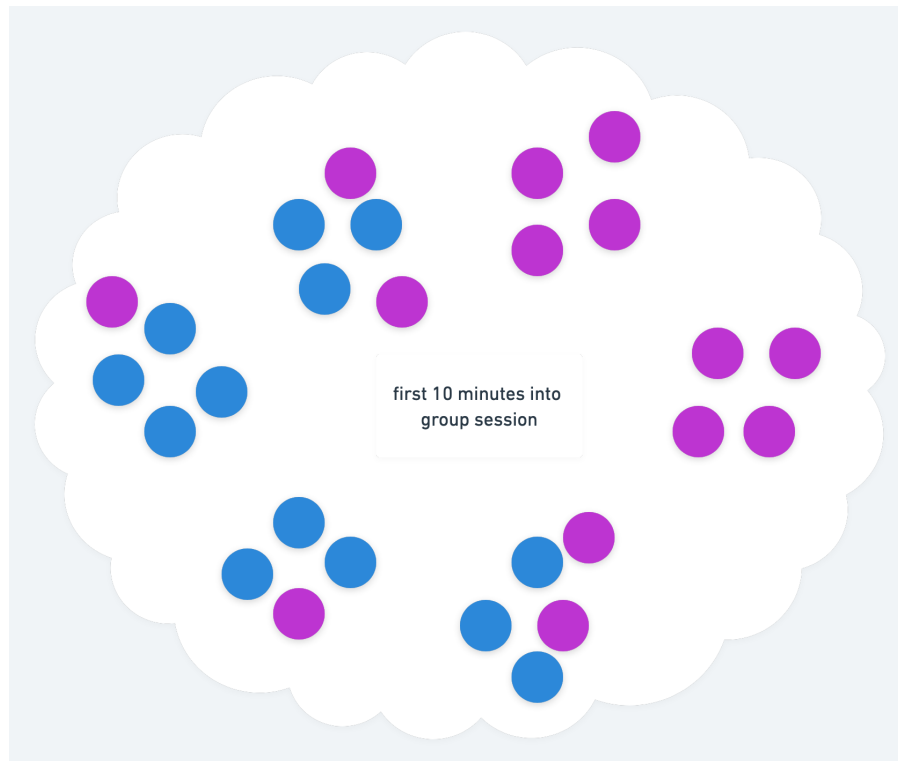

Start with pairs of 2 on light touch icebreaker, build trust

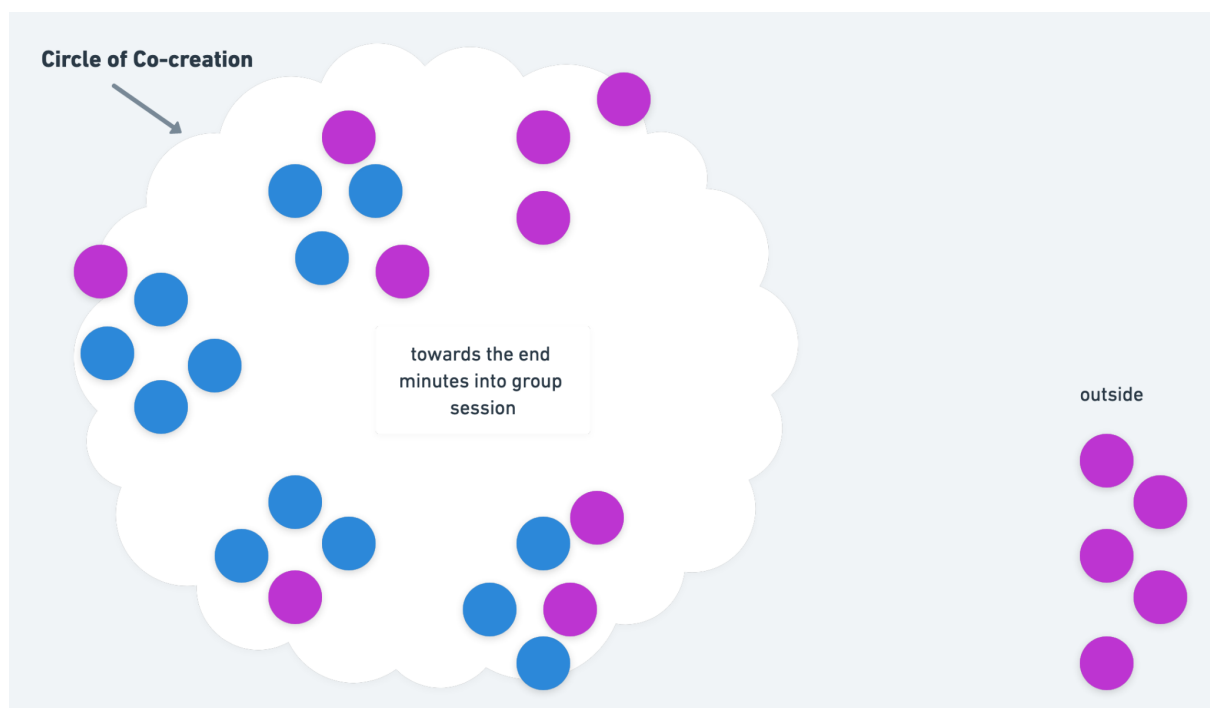

Get them to open up to a larger group by sharing about other person

Gently nudge them into co-creation zone of smaller groups

Some will leave, but it's alright focus fully on those who are engaged

Make sure to agree on next steps
