Dear,

My name is..... and , I am 25 year old. . I have been studying and will be completing my studies in June

Within my studies, I had an opportunity to develop my knowledge about I have skills of.....

I am interesting in taking part in a long term voluntary project. EVS will be for me a great opportunity to develop my skills, my knowledge and to get new competences for my future.

I already took part in several European projects where I was able to meet and exchange with a lot of people from different countries and with different cultures. Since a long time I have a strong interest in cultures of I really want to live there to get to know better its history, its culture, its traditions and its language. In the frame of working on exchanges between people, sharing our backgrounds will be for me something really important.

Your projects is about and I am That's why I have selected your project to do my EVS. Indeed, the activities you propose are directly linked to my personal objectives and my will. Getting involved in your project will be a great opportunity for me bur at the same time I also think that I can contribute to your project by doing.

I already have a EVS Sending Organization with whom I have regular contact and I would like to know the possibility you have to host me as EVS in your project and if I could, then, start the project from next September.

If you have any questions, please do not hesitate to ask me. I look forward to for positive reply.

Yours sincerely,

İmza
