If you have any questions, feel free to dm me on tumblr (@rehgrats) or twitter (@drgnsgaybs)

I will share the files via email or discord!

More information:

I prefer cashapp but I can also do paypal, USD only (sorry). I would like the payment upfront. I don't think I can do refunds, but if something happens where I am unable to complete your commission, I will see what I can do.

I will send progress shots of the sketch, line art, then the finished product. If you want more progress shots let me know.

The finished art will be in .png format and can include a transparent version and a simple background version.

I will try to get everything done in about a week, I have a queue and will do commissions following that queue. If there are delays I will let you know as soon as possible.

When I am finished with your art I will post it to my twitter (@drgnsgaybs) with a watermark and @ you if you want! You can opt out of this though!

I will do:

SFW, NSFW, blmatsu, yumematsu (-sona and selfshipping art as well!), cell shading, guro, oc's, furies (including yiff), dead dove, fetish art, dark themes, body horror

Fandoms I am familiar with:

Osomatsu-san (mainly)

Assassins Creed (1-4), Lisa the Painful, Persona 1, 2, and 4

I can do fandoms I am not familiar with if you can provide a good reference!

I won't do:

Complex backgrounds, painting, hate speech (if the idea is spiteful or hate art in any way chances are I will not do it), NSFW based on IRL people (-sonas and yumes are exempt from this! If you send a reference for NSFW and the reference is an IRL human picture I will refuse!), complex details (this may change in the future), graphic design, like websites and reference sheet layouts. I am comfortable doing art for those but I am not confident enough to do the graphic design itself

I currently do not do comic page or animation (gifs included) commissions. This may change in the future.

I do not do fanfiction commissions. This will not change.

I will not draw any iromatsu, platonic or romantic. Sorry. All other blmatsu ships are free game (even with top!jyushimatsu)

Fetishes I will not do:

Scat, fart, hyper (hyper pregnancy, hyper cock, ect.), anything raceplay, feet or belly button fetish, weight play (feederism, weight gain or loss, fat hyper (NSFW of fat characters are ok), muscle (hyper, gain or loss, ect., NSFW of muscular characters are ok), prolapsing, smegma, vore, macro/micro

If it isn't listed here but I feel uncomfortable doing it, I will not do it!
