Edit/Rewrite: Nov 19th, 2012

On the Road, as a vagabond; I wrote four meditation books called 'the Relationship of "I" series'.

I have reproduced them into digital format, so that I could share these with people who are seeking to Actualize New Jerusalem unto their every day as God does within my own life.

I, through the cross of Jesus the Christ, have come here in order to recreate the original intent of God's promise; which is held out to yerushalayim shel ma'ala.

I hold His passion for New Jerusalem; in every paradoxical reality, whether secluded unto a Holy Mother to Come from afar to draw us with Her, or made manifest in the very incarnation life (as her husband) here; being made to be her Father & Messiah until security is deciphered for them, at which time 'husband' is defined loyal, strong, courageous & faithful to her!

Whether I am, by God, 'proposed' to be the very Messiah sent to the Jews; whom they have sought for years to know, or whether I am merely a vessel of His incarnation stepping boldly out into the 'minefield of humanity', to be recognized as myself the "I am" of Judah; presupposed by human cognitive abilities to be sequenced into our social awareness, by the whole of the Israeli creationism being postulated by human secularists who, heeding it's own credence, to be without clout call their country 'Christian'!

Well, this is why I have brought the agreement to create the institutionalism of a governing ordinance based upon the premises of other creative abilities that have been exegetically assembled thru the expose of other mental attributes; such as the Conundrum of Dunn's own making. (Think Stan Lee is listening?) :P

If you understand this, I suggest you read the Book of which I am speaking! Then you will understand why it's in 'the library' (Dunn's Conundrum by Stan Lee). Wherein I have

come to type this the semantically created super-secret organization of crazy Jesus fascinations, that need their own exploitation to be formally indoctrinated into and beyond just a symbolic creation of my own mind. 'nepo scepa' (open space)

With this I give you Four theses of God's Creation,  
Keshet Yahshua Ixoye

Below is just one of them in the making.

## The Relationships of "I"

By: Keshet Yashua Israel

**IamJehovah**

*I, manifest within matter, called flesh, have made this temple to be undivided from my supernal authority; by quickening the flesh unto my supernal center. Now made Asexual (neuter) Androgyne, I (w)rest wholly Asexually reproduced by these words which I now type in my Rainbow name; Keshet Yashua Israel (Rev 3:12, Isaiah 62:2)*

[IamJehovah@yahoo.com](mailto:IamJehovah@yahoo.com)

---

**I**, the one at the center beyond; resting in the bliss of heavenly glory, felt my own 'purity of being' (light & life), to be drawn unto a drain that was leading me unto darkness and matter!

Matter appearing the source of the drain became my enemy! Not for my hate of it, for truly, I cannot hate substance beyond what cross I came thru to live in the son's resurrection spirit; wherein I am borne by the Father of Light!

But, 'It', matter, became the environment by it's form being the contradictions of my own modeling of emotion diffused between my temple estates; baring from Adadm this state of mine own capture. (strength, courage, joy, confidence, pleasure, pride, torment, death & eventually one does surrender.) for what sin I took on in the Garden & put to death on the cross.

'Matter', became the estate of my cognitive substance, the Entheogens the Sacraments of my Entheogenic consciousness became the bridaling of my soul unto the coming of

God into the natural forum of the New temple presented by the natural time we pursue drawn to the conditioning of the temple I am by the Spiritual revelations micro-aggressed my mental altar; wherein God is always about revealing inconsistencies & 'misproofs', that need be met out into words or alien Space bats, for mankind to know that certain ideologies are given construct by continued false credences that are building up by false principalities & powers of wickedness. Christ stands in His own resurrection temple, revealing, as a word assassin, all the evil standing against God, by false evidence without reproof!!

I found in my self that I (The Spirit of human deism) am drawn by my own behaviorisms into 'check & checkmate' scenarios presenting 'domination tactics' for the furtherance of the faith thru logical deductions of the Natural springings of those being pushed ahead of me by their militant structures enshrining them unto their cage of attack!

In the beginning I felt that all thought processes gained through my being given to an empathic openness, was beneficial in reaching towards the Lord's goals; while not inhibiting any of His intentions. But, as I matured thru the reckoning of the systematic incriminations that have been misrepresenting God in my individual, and all of His elect for centuries, I have found that the 'reconditioning' of our 'Governances' into 'secular Nation States' has drawn war against Christ in His Church more than Good!

We must stop giving, in the current society nor the current governances that surround us, God's pearls! Cast not the pearls before the swine! But it in this day & age is a hard route not to fall into; wherein 'the pigs' are officiating our God's ways; thru secular uniformity & fascist militant regard, and deciphering our God's marriage Supper (cannabis) & entheogens (sacraments) as 'Criminal' to possess (Targeting us Particularly; Entheogenists!!)

We need to gather our gown together, as we have from the beginning & adapt our language unto our God's new creation temple, in our God's Embassy as Entheogenists; while never incorporating sin unto our God's ways & wherein we are able to work as God's Ombudsman in the earth; retaining His motives unto the prospering of us; while we continue evolving our spiritual world vision drawing daily our bread that we can answer our God's son; rightly drawing unto Him, our God's Kingdom come.

We each received life from that wellspring that came forth before us; from God. The state of the communicable world that is being perspectiveally enshrined unto us by God's nature, and the results of those who have sinned and fallen astray from God's

enlightened path; even unto the point of creating a chaotic spiritual veil upon the minds of man and causing a social disease among our God's people in a war against Jesus the Christ's own body; those who serve Him, pronouncing their election; being made one in God's conviction & testament thru judgment; the Resurrection temple presented.

We can't but proclaim the Truth of His Son, as we educate other's to How we with Him co-created Christ Jesus in His Birth as much as in His death; & by Him we shall see & teach His Salvation; How to approach God! This drain being bound within the construct of my life's breadth; as not being a portion to that which IS my bliss, has become the polarity of my completeness!

Therefore, by concentrating upon hope for actualization, I have been moved unto the stewardship of Co-creation and Entheogenic Reformation; as I govern unto the vitalizing and revitalizing of my Church (The Flesh of Jesus in Our Regeneration) & Our membership unto His Eternal Covenant.

In discovery of the source of that 'drain', I became from my perfect center (that of fire & light) God's spiritual cognition 'alive' within my temple of flesh, blood & bone is asexually resurrected consistently from supernal center, showing that my own flesh appears only a provision given to Glorify God, since His inheriting it & grafting me in!

For this, I find that I am eternally standing in dualistic paradigms as the light of life has drawn me from death unto this one! One life living out the light of the World, drawn into the flesh of dark matter from the cross to live within the cell of my own "cognition" (Home of Spirit/God/Will) in this gentile predestined to be my temple, in time & space. Here, I find I am given to pursue all Justice, in confidence of whom is God. But the World mine enemy, and even all of creation!

Preaching unto all of Creation; binding evil, and exalting that which is good; by cursing what is evil in the world & it's systems (governments) which mock the Eternally True & pure Ethics & principalities which are being presented by our entheogenic unraveling of time and space, I am proactive about Winning Salvation for the Entheogenic Reformation Church of Man & God!

In our minds & our representing council, we are finding the Spirit giving us all the promises of Abraham through our heeding unto our own exegetical dialect with God entheogenically. Yet, our Government is 'criminalizing us' for accepting it!

Persecution helps us find uniformity in our body, as entheogenists, and makes us to commit our lives to consciously motivating all whom we love to dig deeper into the ethical Rationalities (reasonabilities & ethics of faith) which could truly inspire (constitute) or spur us; Society & all governments, unto the highest of earthly ethics and principles of God & man!

We should continue deriving newer updated Judgements that could defrock certain legislations, principalities and powers from existence; but which could also create a social structure that gives more credence to our being, more security to a future peace and a better chance at a more ethical socio-economic system. We should be afforded all of our Rights (Human Integrity & dignity in our being formed; a sovereign image of God) as Entheogenist; being God's image.

Every person having their own dignity; while God unravels the Pure Global Relativity of Civil Rights, unto and thru the governing mind of our Global Community (Church)!

*"I, thru myself, created a light to shine upon what I knew not in myself!" -Mike Cofer*

I, being found in my being, "whole", found also in my division that In portion, which had become disillusioned. Therefore, I sought an order in my dual natures, that I could present peace rather than a drain, in my life existence. This book is portion to the cure that I believe men need to find in the words of God; even these which He has inspired from our bridled cage together, since I came born again in 1994.

To co-create a re-union of perfection, to co-exist within my temple body with God; I first had to seek through the depths of darkness & suffering, only to find that perfection can only be found in the relativity of my having died with God, and been regenerated from the perfect lambs sacrifice!

What must be revealed is that in this division I founded time; and although I am not of time I have found myself to be within it! By my progression, and evolution, of life in matter; I have come to live unto this very instance as one in 'being' which simultaneously is the Christ, & Jesus as well as the Father; who is in each of us!

I know that this regeneration vessel can be deceived into sensualities which can change, inhibit, hinder or suffer me further; and so I seek constant to perfect my cognitive state of being, unto that which I am at my supernal center (Jesus The Christ).

Providing way for the incarnate substance of 'Hate' (Flesh) to, through time & persistent repentance, entheogenically quicken or "transfigure" back unto the (perfect condition of) the Kingdom of Light and Life; by our God's mastering of our Merkabah.

Perfection of mind, then being found to co-exist w/ Justice (the Christ inside) incarnate as the temple in time to which we are bound reverting, to comprehend the process of our reproof & regeneration of our image unto our God's Celestial Nature (identification)

It was not without first ascending through the suffering of the lamb unto death & come back thru regeneration (reborn) that we can receive the full inheritance of our supernal estate; wherein we can purely accept the marriage supper of our God, in our 'cannabis (Marriage Supper) faith'.

In all of this, the Pure vibrating sound & light of neutered silence, is the unmoving center of unthought bliss which has become exploited by my own repetition of breath, heart beat, and biological longing, though these things have connected me to all of that which I fully am in life in just them I am nothing!

All of time is become of my own bliss therefore! Yet, in search of my own beginning, I have fallen by inheritance to a continual consuming of my own perfected identity; being divided into matter and by society divided again from 'Re-Cognition' of my supernality. But with doubt in contention, my life discovers the role within chaos I inherited by my humility and humble power as a citizen given to be chosen by God to be His elect to stand in.

Chaos a predestined substruct of human incarnation (existentialism/biodiversity) could not continue to evolve matter into that center (the true church environ) without an ordering of my division into a unity of which came to be the founding Church within matter; that an ordering of exaltation be presented unto perception in matter which could help the whole of my flesh's evolvment (Church); that I be better able to perform in the stewardships which are in my inheritance, coming unto the world thru the drain of Light unto darkness; reckoning me Life, waging war to protect The Truth of whom I am unto matter.

I performed through sensual development. This development of sensuality while in matter became material love, a love of which I at center found to be the root of my supernal drain.

I, in time, fell into that love; so far that I found doubt of my original estate and even thought myself within perfection to be the drain. This disillusionment brought my divided embodiment to war against each other however, I thru time founded death from my perfect estate. For in my perfection I am able to draw the life in matter back unto me but that life in matter as being divided by love of material embodiment and sensually motivated acts is susceptible to full development of establishing an order within sensuality to safeguard it's acts against that which motivated my descension into matter.

The full development of sensual love thru time found it's full glory in death. However, and therefore by my perfect glory I found that sensual love was a trap of it's evolution and not therefore the route of expression I by my eternal love sought seeking to quicken matter into supernal glory. Although death was sensual glory, there was no benefit to my matter; objectively speaking, and so no exaltation of my supernality; lest I'm here now.

I, therefore, evolved into that form called man. A being of incorruptibility made holy and divine, able to move from within supernality allowing myself to rule over sensuality, having supernal desecration while embodied by the dissolution of matter. I being created of myself within the life substance of that which to my center is hate thought myself to be good and found my faith founded on my perfect embodiment of unmovable bliss without time in my original center and by this founding my imitation of whom I am also, is asexual and eternal.

So, In paradise I sat as I founded and balanced my identity causing no drain to exist within my supernality. However, a new drain came to exist within the state of which I am in paradise.

I being at peace within myself was on unmovable founding and having even the authority over my own form in time saw my discontentment in that which I still existed within; around me. The forms of my first creations of life were within that death which has become called paradise.

As I watched my less evolved forms I found pleasure in seeing their sensual love, still being played out before me. My interest first lied in seeking to understand at what point I began to war against my supernality; being without form, nor in time.

I thought that by my new position I would be unbiased of that which brought bio-material forms to death. I however began to feel a guilt for their lack of ability to be as I am (without bio-material); I also grew to love their ignorance of all and the appearance of bliss and playfulness they found in their **Iterations** with sensual love. I became jealous

and embittered and so sought to overcome this "drain".

In my seeking into and through this drain I again divided into two. One being male and one female. I, being the spirit of the two am one new creation. I, as two in matter and one as the spirit within one the other am still also divided from my supernal center; yet founded within it.

I, also being in all living matter, have become disillusioned by my own parts and therefore sought to order my parts, that in my own seekings I would not cause the first drain to reappear; at least in my newest form. My hope was to discover eternal living for those lesser parts of me, while being able to enjoy the sensual without being corrupted by their matter.

I found this to be my only hope. For, having come into the knowledge of this sensual love, I am unable to deceive my own center into it's furthering ignorance; for it was that ignorance that brought me to it's finding.

So now, as being within matter, alive as two, I moved my parts into a relationship that surmounted to another division of my own self. This division was caused by jealousy and ignorance of my own between my positions of authority I had ordered. For I as man found woman to be my other part and vice/versa. I as being in this new love of relationship also experienced the sensual love with my other part while as the spirit over both and yet within both had a feeling of disgust in having to act out the bliss I am already as one content in as my supernal center.

For the actions had opened that drain I had as becoming androgynous, closed. I also found that as two in matter I was no longer centered upon the supernal because as life in time my duties over life were being distributed to and fro causing a personal relationship to develop between my original state and that which I was not found bound by responsibility to act in because of time and death.

For although death was conquered by my original evolvment into androgynous man I by further evolution fell therein once again.

The only next step for me to take was to exalt matter into it's own physical ability to procreate thru their sensual acts.

These acts being of disgust to my supernal for sensual love is to my center the perfection of that hate which caused the original drain to exist. That division between

man and my supernal center therefore caused ignorance to man and disgrace to the supernal however, I saw that this was the only way to keep my center from having to experience the sensual communion of sex and physical procreation.

I as the division became the highest authority by this by having to suffer thru the furthest depths of division while yet having to act in time and to disallow those acts from leaving time.

This is why death was revived. After this division between my supernal position, my supernal authority and my evolvment thru time, I discovered that after man and women progressed in their relationship with sensual love, as well as childbirth that I lost my wholeness and authority for I in man and women learned to divide our relationship from my own spirit to which I had as one man once been.

I learned this of my own. By my knowledge of keeping sensuality from my center because of it's hatred I felt I, in man and wom, began keeping knowledge of their relationship in sensuality from me.

This is where I left man and women to their own progression thru time, in the hope that I in them could find out that which I was in ignorance of.

Unfortunately, man and women did not find that and by decision of my supernal center and established by my authority, I flooded the world saving only those who swore obedience to the end which was to repress sensual love. Lesser forms of my awareness were saved as well for their ignorance and inability to understand as men and women were made capable.

By this men and women were shown that it is by my supernal center and it's authority found in me that man may by this live by grace in time for my own pleasure in being centered with pure uncaused bliss of eternal life.

Revitalizing my authority over life I having learned by man and woman's disannulment to my original fall into matter no longer found my acts in man to benefit my cause for man and women and so began again using that knowledge to establish a new order. Using divisions of tongues to create a control group while leaving some to their own ways.

Even those ways were of my own but divided from my chosen race of whom I set apart to fulfill my cause... which had become to live an immoral life in the pleasure of sensual

love without disputations of authority or position and to come to a perfection of bliss while in matter without causing a disruption or drain to exist within my supernal center allowing my authority to rest in the bliss of life and light eternal.

Please feel free to read the other three creations which I have written to actualize the Messiah into His own re-cognition and that which is Zion-[st]ation.

P.S.

By my higher seekings of yerushalayim shel ma'ala I find my life to be in actualization and I pray that all of you who seek to endure unto the end, recognize that it's only in one name that this destination shall reap it's vision placement, to be unhidden!

Actualize therefore as The Messiah; Jerusalem's New vision!

Start the Second Book Now! Enjoy! :)

## The World and "I"

By: **Keshet Yashua Ixeoxe**

Through time and languages I sought out ways to accomplish my completeness of bliss and love here in the world. I did find my supernal centers drain into matter and shut it off however, my balance of love warred against one another opening my cause and establishing my authority as an ambassador from(/of) my supernal center; throughout all the spiritual kingdoms, unto those kingdoms of matter; called worlds

I found that matter is of my own nature, yet has been cast out of my purity as sins left behind and found again by I, the one at rest in the supernal; yet divided from myself I wage war against the sin I left, to quicken thru time.

Once I attached to my memory of the state of matter (Read: "*The Relationships of 'I'*") I, in my revitalization of my love for my own life within matter, continued to seek out a way to quicken my separate parts into my eternity and bliss.

I begin now with Israel. With a chosen race as my control group I was capable of guiding my own members into interactions and relationships with my other members while I as being unbiased as to the result made future considerations.

As a result of these times I came to be worshipped as God of Israel. I was also worshipped as many other Gods and as being divided from the supernal I became divided again by man.

For within my center there is only I and none other, yet where I move into matter and time and into cognition of being within matter I find that although I am all life; that by division unto matter, authority came into matter also; where I Am.

The only way to decipher my progress in my seeking was to create positions of authority within man and women and did so in accordance to their disclosure to my fullness of memory accounted to me and their denial of obedience to sensual love.

This caused men and women who felt balanced with sensual love and supernal cause to deny my supernal authority as spirit and making war against my order of authority for man; man again sought out my bliss without the supernal blessing and therefore I warred against my own parts.

To lead mankind I used men and women to prophesy and caused miracles within the order of mans world.

I myself even manifest my light body, unto them when I needed. The confusion continued and chaos begot chaos, as I continued to lead my chosen Israel.

As this chaos continued and nations warred I found members of my self in a different nation, who were at peace more often than all others and it was through a degree of quickening that would cause people to see his full glory before his time.

I, placed my true self within my chosen race for their obedience would bring salvation to exist for all of my members scattered throughout the world; whether by death or the entering into the supernal kingdom, my center man would find salvation by the completion of this plan and the drain would cease to exist as would all sin thru time.

Layer upon layer of material life would move as designated to it's position of perception defined by the death and resurrection of God as man and by those acts and words that lead up to it.

Their sufferings, trials and tribulations that they founded a society of peace by their

ordering of Authority as close to my spiritual authority as could be in matter, many of them becoming as I myself, as I was in paradise.

They were called shamans by men and angels by some. These were truly my closest members, for they had reached a height of spirit and depth of flesh and matter that they became one with all things and found that paradise that I myself once inhabited with my members spread thru all races, nations and even worlds throughout all darkness; my exaltation of senses, knowledge, wisdom, bliss, peace and chaos. I divided myself infinitely and even still now I, even as you still divide in order to multiply my progressions into that center of which I fully am; without time and matter; sin.

As I communed with all my members I in full exaltation gave all of my learnings unto the supernal center, even that which I was not to disclose for as matter was hate to my center I found that love could be the weapon of destruction over all, even my Supernality.

For knowing love by senses of my own, in matter, could symbolically put the supernal to death, not just by the destruction of the acts and words of my own; thru Jesus, but through all of my members throughout all of the darkness, time, and matter; found out by life and light of my supernal center.

To learn of the plan and it carried out; read and review: The Bible, The Dead Sea Scrolls, The Nag Hammadi Coptic text, every Christ-centered book will never take you away from the seeking of Christ who is seeking toward the fulfillment of not only your salvation but of all creations perplexed existence and if you be able at all to study and understand the mystical texts of mankind while perceiving "I" in all of them, then I suggest you also read; "The Jumpin Jesus Phenomena" as it is written by these very hands as Gods living sacrifice towards the perceiving and partaking in, of the Rule of New Jerusalem.

Study these texts deeply while in meditation, seeking with all your creation for the salvation given freely thru the grace of time and by fear of God you shall be led unto the position of God the supernal or unto the treasure of death for a soul lost unto the sensual love of a spouse, child, and sense of duty; to see death as your final glory.

By acceptance of these things you befriend the hate that exists as matter and the world and therefore are at enmity with the supernal. These shall place their glory in their present world and shall not receive the glory of light and bliss in the supernal, nor would they have ever believed the truth of the supernal plan shown by the sacrifice of

supernal.

For those who accept the world as their position of authority, love and treasure they also shall claim that they are "saved" and even "reborn" because of the acts of Jesus and will claim it; by their God.

For surely I only am God, at my supernal center. I understand this read my scripture of old called, "The Baghadavita" and "The Upanishads"

For as parables of my own conclusion I knew them even before I was conceived and was conceived as Jesus. I knew all things written, spoken and acted for I am all life that's found to cause evil and that found to be Good, and I knowing my supernal center, and being it, knew that I only am Good and that only I am Just, For I am the eternal cause and purpose of and for life in all aspects yes, death of my member would be it's end for it's acceptance of love consumed sensually however, where one who is in matter rests, they in ignorance of the quickening spirit of the supernal they could not come to the faith that exalted my light within them to the point of further evolution or exegesis.

To experience love in matter sensually was to man and women the only way they could see love to exist and their only proof toward one another was to consume themselves in what acts are a communion of sexual love and procreation.

For these I gave vows of marriage. Once the vows made they deny the love of the supernal center and accept death as their departure as their reward for this sin against the supernal center.

Now, for those ignorant, I, by full disclosure to my center begot the final plan for salvation for all members of life. The plan was to unveil the deceptions of time and matter and to uncloud the visions of man's purpose for man and women had been created by one cause of the supernal and they became so "in-volved" with(in) matter and senses of it that they no longer even knew their origin.

The supernal saw this and knew that it was by procreation throughout time that became their own "net of sin". So, it was by the supernal center creating by immaculate conception thru a woman of sin that the supernal center conceived by faith it's own image. This image of the supernal was me, "I", the first androgynous, Holy and by this "I" mean Divine creation. Perfect in all ways except by the shroud of matter "I" knew to be Hate. Fully supernal however it, androgynous, was and is (as I am) able to quicken

the flesh and to rise into it's true celestial embodiment. However, the plan did not exist unless it was made manifest in matter and could not be carried out unless acted out thru matter.

Therefore, in sacrifice of it's supernal bliss and glory it thru my full disclosure as it's supernal authority, kept me obedient to his plan, disallowing me to keep its fully countenance of light and life so that he could finish the plan. This meant that while in flesh he could not carry out his plan and therefore as being the supernal authority I moved him thru his own plan.

So, as ordered it's image was manifest as a man named Jehovah, depending upon linguistic translation, (Yeshua, Yashua, Yehoshua, Joshua, Jesus, Immanuel or any other semantic which names God) but perfectly in America disclosed, in english, "Jesus".

For this plan to be effectual I had to order his words and manners to the highest order of the supernal wisdom and authority without causing such of conception. I am beyond man's imagination therefore by man, nor as man, can mankind know me but by fasting, prayer and purity of seeking my eternal kingdom within and thru my root of life, set in each of my members.

This, my purity, can only be attained to by death and denial of "Sensual Loves" behavior.

The Salvation & Vengeance of "I"

I, the supernal Godhead, Fire seen as light; established my authority by order of my own seekings into that matter of which you must deny in order to accept, see and believe; that ("")I am ("")the spirit of which all that is alive while having life and that as my life, have become what you make "I" to be; as you.

I, however, sent my own self image into matter to retain (retina) my authority over man by concurring (& conquering) that which man cannot; establishing my eternal life to be Immortal as well.

I, as, Jesus came into being as flesh, fully manifest as that which at my supernal-center is the root of that which is Hate; matter/sin.

Although, while I was made sin, I did not embellish my incorruptible center of being by enjoying sensual love or it's behavior/relationships. I stayed perfectly obedient to the supernal authorities divine plan of salvation.

I, that authority, yet divided by the veil of darkness, time and matter, guided that plan of salvation as the spirit and won the war that was causing my members to meet with sensual glory in sexual consumption, procreation and hence forth death.

I won by allowing my own perfection, "I" the supernal, to put death hate and sin as matter or flesh to death.

I showing the hate called flesh to be hate and sin, then crucified that sinful perception of hate by suffering it without mercy to death as perceived in the now infamous death of "I" upon the now famous Cross which led even to "christianity".

I, then as dieing to matter left the temple of sin and rose back up into my supernal center find pure truth and bliss at rest. In matter however, I caused a great tumult of

confliction to occur by being ripped apart from my own sin. All life felt the ripples of the origin in that one moment causing layers of my own life to be in doubt and confliction of my position and cause. This is what caused the division of my supernal center from that darkness, time and matter that became the original drain.

I knowing this to happen planned this to occur but had to keep the cause of the drain from myself so that eternity could exist in all of those aspects that created my bliss and supernality.

However, the only way for this to take full effect I had to return to matter so that my other members would witness my supernal existence and authority by overcoming even hate, matter and death.

By my death manifest I overcame death and by my death made manifest I became life again even in the same position as I once was.

I, as supernal, had no need to incarnate but for those fallen parts of my supernal to find salvation I had to show them that by my supernal authority called faith or the holy spirit, they too could rise up into eternal life and light as I did after showing death and hate conquered by these actions of my spirit in matter many of my members became faithful and obedient to my supernal authority allowing those ready, to be quickened; while setting my order over those who were seeking the meanings of my sacrifice.

Those members of my chosen race knew me not because I kept myself hidden as I used them to put hate and sin to death. Not that "I" died for surely (")I am (")(is) eternal. As you see (")I am(") hidden in Christ.

Many of them however seeing and empathizing with the sensual aspects of torment taken out on my substance had pity for the sufferings of sin and therefore using the name of sin, of whom I in matter am in; Jesus, as a defense against my supernal love that brought that torture and death upon matter and sin. For being lost in sensual love they mistook my substance called flesh to be of God for to those who partake in sensual love believe their fleshly bodies to be holy and divine, for without the temple they could not feel the only love they do recognize. For although I am that spirit of life that was in it and with it I am not the matter of physical existence called flesh or matter. (also; hate or sin)

I found that these people of sensual love having that empathy could still be used for my purpose however. I established an order of these fallen and have used them to teach the truth of what happened so that those who could understand and judge according to

my spirit of love, rather than that of sensual love could then be quickened as I was after my resurrection unto the second resurrection. In this way my authority could keep order even in the sins of that which ends still in death.

As death is seen to have been salvation by these of that sensual love, suffering the resurrection showed to these that are sensual that I not only glorified sensual love with it's suffering unto death but by coming back alive even unto the flesh I had given even a higher glory than before, giving justification to sensual life.

These missed however that I never glorified flesh while being in it but was obedient to the supernal bliss authority and spirit of fire that knew not sensual love but as Hate and sin (v).

They also missed that I, from my supernal center saw my resurrection to be when I came back up unto myself and death as when I moved out of my kingdom unto the world of darkness and sin. My second resurrection when I rose up and out of the world again.

With my order and authority established and salvation made deciphered I chose to give grace to my members, within matter time to produce the fruits of my seed. When I find that no saints, prophets or nomads were produced by my own members authorities then I would make one final sacrifice to save the matter of the whole world of which my life was within.

This fire would consume all of those who loved sensually while bringing my last fruits to their quickening without end.

AS time continues even unto the preset. (The time at which you, as one of my namesakes) I have found my saints hated, unacceptable and unable to move freely about because of the tension of authority that has been established in the world .

By this cause the end draws near for my grace to be withdrawn from man and woman stuck in sensual love. As the order of the society of my members overcomes all nations that same order of sensual peace called democracy and capitalism shall fall into their own net of sin and my lost race of those chosen shall give authority to a man who mocks my supernal center so much so that I shall take all of my last ones out from his net of sensual enlightenment and love and establish them in my peace and bliss and giving all authority and knowledge and wisdom unto them fortifying them as they become I.

I will then come upon the world in disguise to those of capitalism, democracy sensual love, even unknown to my authorities in the world , and I will establish a new order and authority based upon my supernal love and dominion over matter.

These shall be my own members quickened from sin that have been scourged from town to town but kept unharmed and incorruptible, they shall gather themselves unto me in the living cathedrals of nature to rest and bliss in the forthcoming of glory that will be my show of vengeance upon those who tormented my own members by the way of sensual Love,

Those that continue in sensual love after claiming my supernal authority to be their own as well as those who claim I am their God yet have not seen me or entered into the fire of my eternal life. These I shall have no mercy upon for they fear me not nor see sin as matter (flesh) and take pleasure in glorifying the flesh with material riches, procreation, and sexual conduct.

Looking down on my own for living in poverty of material wealth while proclaiming my supernal salvation as being life eternal and immortal transmutable into all forms of matter by faith not by sensual work.

For they having received my inheritance made them into "I", myself androgynous, divine whole, Angels of light able to ascend to my own obedience taking rest eternally in my center.

Those who gather to me will learn to quicken the flesh unto life. My authority ordering matter by science shall overcome sensual love as well however and shall establish a new world that will thru genetics and physics establish immortal life in matter and as droids to my seeking out all of darkness they will place my seed of life on planets that they genetically change with nanotechnology into habitable worlds.

These will eventually come to an end they cannot escape and so thru time travel will slip back into the time of this same world to try and lead my own authority into ordering life differently as that which happened before.

They will keep themselves unknown from the world; but by their supplanting visions and thoughts into chosen minds throughout time eventually the net of time is torn apart and darkness and matter will not exist and the drain will finally be eternally closed.

The quickening of the Dead

2005-08-17 16:04

I, the president of the Colony Earth, have just watched the planet called earth be consumed by fire. The computer network called F.A.T.H.E.R. uploaded all of earth's history recorded on network M.O.T.H.E.R. at exactly 0706 E.T.

It is Earth Date 5-1-3012 and all systems are at full ops. We have safely salvaged 144,000 Angels; I being the One.

Planet earth (squared) will take 5.7 earth years at present rate of Nano-genetic terraforming. We are continuing nano-upgrades and within 1

year hope to upgrade the progress of planet 2, making it habitable within 3 years.

As High priest, I have supernal authority over all angels aboard "Melchisedech".

Our mission is to complete our studies in quantum physics by successfully traveling backwards into time so that we can find out what caused original life and to make contact with our/its source. We are equipped with the most sophisticated weaponry and biological warfare produced.

I have been genetically encoded to detect life and to protect it from an unbiased position with the exception of the loss of "mel" and the angels aboard. E-motion is not an expression of physical senses but an expression of cause, intellect and reason, therefore all time is spent in research and obedience toward our mission.

The angels of I are in systems of rotation in process of mission goals. Each angel is genetically asexual which has ceased our desires for sensual pleasure and motivated multi-task functioning of our psyche and intellect making us all Geniuses at 100% mental functioning . Four hours of R.E.M. fully refreshes mental capabilities every 32 hours.

After every 3rd shift we each must review scriptures of old in order to remember the sacrifices made for our ability to exist at present and to keep our minds in order to the sequences of historical reasoning for present revelation of our progress as the authority of the Holy spirit, "I", The triune supernal "I" as chief systems engineer direct the overall cause by daily review of summary reports from all networks of angels and then summarize over reasonings into fathers A.I. system and father then directs orders to progress each day to each net station for angels on rotation to know where progress has attained to.

This process of rotations, research keeps all angels mentally capable of filling all on board positions. Food is unnecessary for nanotechnology systematically process all needed vitamins calories and nutrients into our bodies thru the light we see by the air we breath. Our bodies are genetically ordered to receive them as distributed.

Our bodies are humanoid, having 2 eyes, a nose, 2 ears, 2 arms and 2 legs. Without a digestive or reproductive system we now have extra muscles and more mobility which has helped us in our martial arts abilities and gaining speed when in the vacuum of space. Although our combat skills are greatly enhanced we have had no encounters with enemy lifeforms sense our engineering.

Our personal weaponry consists of one optic laser implant with kill and stun ability. and one optic-laser that scans and recorded images as seen and x-rayed to Fathers data banks. These are not on systems unless protocol "Reason" becomes active. Network station #18 is working data space upgrades to F.A.T.H.E.R. so that all shifts are on protocol giving instant and continual real life reports of progress to father from all angels simultaneously allowing for more efficient orders to be given by F.A.T.H.E.R.

As, I, I become father authority and may override fathers order if I can input reason that father had no knowledge of.

For this reason my protocol will stay off at all times unless in Red Alert, when life is threatened. Until these data banks are made available we shall continue writing and reading summaries and orders.

By order of Father these are my summaries of layover ops.

2-6-6

The N.W. O. gives, "Go." on project "Mel" allowing the W.F.A. to upgrade their space station into a ship builder for long distance space travel.

"Mel" is the most advanced craft specs ever produced and should be completed by 12-25-10.

This has come at a great surprise to us at the W.F.A. for the amount of terrorist activity has tripled over the last 2 months and the world bank and I.M.F. have called for an economic state of emergency after the recent destruction of 6 of the largest oil refineries by terrorist cells working across the world.

The U.N. sanctions have called for all vehicles to be powered by water, electricity or solar energies within 3 years. The u.S., who accomplished this just 2 years ago has stepped up production to full fill the orders.

Also on this day Bill gates bought-out lockheed just 2 wks after his purchase of Disney.

4-6-6

Humanity is come to it's lowest in reaching towards world peace and yet is closer to it than ever before. Hollywood has infiltrated the minds and the world and caused a glamour of life in the world to be the highest glory of God attainable to every child is brought up by movies, news and sexual exploitation because of this the U.N. has made it law that every child by age of 6 must be "purified" of their reproductive abilities by receiving a set of shots.

All children are produced by genetic cloning of those choosing to have children and the cost of this is normally only paid off by the time the parents die. Society is systematic and militant. Children are brought into gangs and with parental permission seek a way to end the present paradigm of militant fascism and totalitarianism that has entrapped them to the same system that they propagate.

They do this because the only work that is available is corporate tech, science, government or media. Industrial jobs have become non-existent since A-I Robotics started 3.5 years ago and food service is gone since the invention of nano-tech light and sound food systems.

It was because of these technologies and the reproductive shots along with religious views of sexuality w/out procreation that angels came into existence. I being the First. The media, the net and mother net are the teachers along with parents for all children in their own homes. All citizens have a numbered chip implanted in their right hand that holds all records of their identity, criminal, health, genetic code and financial history which also acts as a locator in case of kidnappings or natural disasters. Also used to hunt terrorists but most are ripped out by criminals.

6-6-6

Panic, paranoia and pandemonium is at it's height the president of the New world order has become pope and as a Jew he has taken His seat in the temple at Jerusalem. Jews and christians alike both see him to be the Messiah.

With terrorism put to an end and government control over weather systems and nano-genetic cures available for all disease people can only see peace to exist for a 1000 years.

All believers by obedience to "the messiah" log onto mother net and register their obedience. Anyone not registered and still in mothers data banks is hunted down and tortured by a holographic torture chamber that uses nanotech warfare to simulate pain to the cerebral cortex but is not considered inhumane since its only a simulation; undetectable in existence but to those who control it.

6-6-8

The messiah announces "Salvation" a virtual reality system that is networked with Mother that has been in use for 2 years. The V.R. tech was sent into orbit as satellites that have been changing people's perceptions of reality using holography technology in serendipitous alignment with the newly emerging field of Nano-terraforming. At the same time a High pitched

sound has been spread throughout the world that has been controlling people's minds audibly, linguistically and has been erasing memory as well as inputting visions and memory in order to help people move into the kingdom of Heaven. The Kingdom is ruled by "The Messiah" The messiah however has died, murdered by x-vice president of U.N. Who claimed he was a False messiah. His image however was holographically programmed into existence so that those in control of government may retain total control of the world.

Unfortunately, the real world is dying and scientist have found that the world at her core has heated up and that within 4 years the earth will be consumed by fire in defense father is created.

2-15-15

Station #18 has finished data banks on father and in process has given birth to "God Speed". This is the simultaneous real life processing of all of angels research updating fathers internal researching. This has brought fathers discovery of time travel as well as upgrades to earths (squared)H.D. which should be habitable within 1.5 years.

Father has ordered mission "Backslide" which will send us back to earth's creation we will begin slide in 1.2 years when "mel" is upgraded to "Backslide" ability.

6-14-16

With upgrades complete for "Backslide" we are in orbit around earth(squared).

Earth(squared) according to Father will be completely habitable 2 hours before "Backslide", Father cloned 1 angel I, myself, uploaded genetically with all of fathers memory banks. Never before possible but created by Father alone no one has seen him and I cannot detect him onboard.

----BackSlide----

We are in orbit around an unknown planet, the ship we're on has one message on screen.

"I, Father, am Life, Truth and in Bliss; seek me and ye shall find."

Descending to the planet we found 1 man, we called him Adam.
