cmc community Health Foundation

Outputs and Outcomes Follow-up Report

Please submit this report detailing the progress made in accomplishing the goals and objectives of the grant during the award period. This report is due ONE month after the contract ends. The exact due date for this report is indicated on the contract you signed upon receipt of your grant award. In order to complete this form, you will need to utilize the information contained in the Outputs and Outcomes Expectation Report submitted with your grant application. Failure to submit the Follow-up Report by the specified due date at the end of the grant award period will result in the ineligibility to apply for funding in subsequent cycles.

Please contact our Grants Manager, Whitney Crandall at whitney@communityhealthfoundation.org with any questions or to submit your forms.

Your follow-up report submission should include:

- ☐ Outputs and Outcomes Follow-up Report
- ☐ Photos of project with photo releases (available on our website under "Follow-up")
- ☐ Supporting Financial Statements that account for how grant funds were spent.
- ☐ Contract information for any employees in accordance with your grant application.

Grantees' Outputs:

1.

Expected Output (from Outputs and Outcomes Expectation report)	Construct a 1.25 mile walking trail around the Stewart County Community Park.
Actual Output	Constructed a 1.25 mile walking trail around the Stewart County Community Park.

2.

Expected Output (from Outputs and Outcomes Expectation report)	Na

Actual Output	Na

3.

Expected Output (from Outputs and Outcomes Expectation report)	Na
Actual Output	

Grantees' Outcomes measured during grant period:

1.

Expected Outcome (from Outputs and Outcomes Expectation report)	Improve Overall Health of Stewart County Citizens.
Actual Outcome	No data has yet been taken to accurately attest to the facts that this has been accomplished. The walking trail is full and we believe it is making a positive impact, however, the trail is still too new to detect these health numbers.

2.

Expected Outcome (from	Build new relationships at the walking tract.

Outputs and Outcomes Follow-up Report

Outputs and Outcomes Expectation report)	
Actual Outcome	There is positive information that the walking tract is building new relationships. The Senior Citizens Center is having walking classes and the UT AG Extension Office is also having community classes that are continually full. These classes are bringing together citizens that would likewise never have met.

3.

Expected Outcome (from Outputs and Outcomes Expectation report)	Cultivate new activities for our youth.
Actual Outcome	Success…. The Stewart County Cross Country teams at the Highschool and Middleschool levels have adopted the walking track. They are using it to run and also to recruit new members to their respective teams. The Stewart County Highschool team is currently ranked 3rd in the state and proving that this recreation area is a huge success.

Grant Period Reflection:

1. **In addition to those listed in your Outputs and Outcomes Expectation Report, are there any other outcomes you will measure following the grant period? If so, what are they?**

We are currently measuring the amount of daily use through employment tracking. The walking tract is seeing between 400 and 600 per day at this time.

2. **What, if any, uncontrollable factors arose during the grant period?**

   The weather played a large factor in the completion of the walking track. Heavy amounts of rain early deterred the completion times.

3. **What unexpected outcomes were experienced during the grant period?**

   There were no unexpected outcomes.

4. **What do you feel was your greatest challenge in accomplishing the goals and objectives of your project?**

   The greatest challenge during this project was managing the weather and managing community enthusiasm. Our county's citizens were trying to walk before completion which was not possible for insurance reasons. This was a positive challenge.

5. **What overall impact do you feel this project has had on your organization and those you serve?**

   The Stewart County Walking Trail located at our community park is a massive success. It was only possible through the hard work and dedication of The Clarksville Montgomery County Community Health Foundation. We are seeing excellent feedback on social media and hearing it throughout our community. Our citizens are extremely grateful.

PLEASE BE SURE TO INCLUDE YOUR FINANCIAL STATEMENTS THAT SHOW THAT THE FUNDS WERE KEPT SEPARATELY AND SPENT IN ACCORDANCE TO YOUR GRANT CONTRACT. You should Include receipts where applicable.
