## **HOMEWORK SCORING INFORMATION**★ (Homework scores make up 40% of your overall course grade.)

BIG II	DEAS MATH (BIM): ONLINE PART (accuracy score)					
•	The score you earn online is the score you will earn for these assignments. How to Access BIM Online	10				
• 1	Use the "Check Answer" button so that you know how you're doing. Ask for help if you need it!					
• 1	f you're stuck, refer to your notes from class and the Edpuzzles, review the lesson pages in your	each				
1	extbook, watch the videos on the <u>class website</u> , come to Math Help or <u>PALS</u> , or ask a parent.					
BIG II	BIG IDEAS MATH: WRITTEN WORK (effort score)					
	Show your work clearly for all <b>bold, underlined</b> problems, and be as detailed as possible. These are the problems I will be scoring, so make sure you show your full, step-by-step problem-solving process.					
	our score will reflect both the quality of your work and the effort you put into solving the problems. ncomplete or insufficient work will not earn any credit.					
	Make sure your work is neat and easy to follow. If I can't find or read the problems I'm looking for, I can't give you any credit for them.	1 point per				
,	Even though I'm only awarding points for the bold, underlined problems, <b>you should still show as much work as possible for all problems</b> . Writing out your steps helps you stay organized, catch mistakes more easily, and truly understand the math—not just arrive at the final answer.					
•	Take the time to review and fix any errors. Learning comes from understanding where you went wrong!					
į	FOR PARENTS: Reviewing your student's written work is one of the best ways to support them. It gives nsight into their thinking and makes it easier to identify where they might need help. When work is missing or unclear, it's much harder to spot misunderstandings or guide them through corrections.					
•	nclude a <b>header</b> with your Name, Math 7, Month 3, 2025-26, and Assignment Title.					
EDPU	ZZLES	10 points				
•	The online score you earn in Edpuzzle is the homework score you will earn for these assignments.					
•	do not collect your written work for Edpuzzles. Take good notes and use them as study material.	each				
REVII	W ASSIGNMENT IN GET MORE MATH					
•	These online assignments are due at the end of Week 3. You can work on them as time allows.					
•	our End-of-Month Tests will include review problems from these assignments.	30 points				
	ou do <b>not</b> need to submit written work for Review assignments.					
RETU	RETURN SIGNED TESTS (with optional — but recommended — Test Corrections attached)					
	Review your graded End-of-Month Test with a parent, get it signed, and return it by <b>Turn-In Friday</b> .					
	f you want to retake the test, you must first complete the <b>Test Corrections</b> and turn them in with your	10 points				
	signed test. See the first page of the test for details.					
PΔRF	NT SIGNATURE ON COVER SHEET					
•	will review all your written work, but I will grade each problem for effort, not correctness. That's why t's important to use the "Check Answer" button in BIM as you go. If you need help, ask! Your parent has a solutions manual to help guide you. It's important that a parent looks over your work daily and helps you understand and correct mistakes. Their signature on the Cover Sheet means they've done this with you.	5 points
