What happens if I don't claim my reward?

If the patron doesn't claim their reward on time it's not a problem;
Rewards are cumulative, so you can wait the time you need to claim them.
If you don't send me the information said above, I can't start the reward/s.
You'll lose the reward/s if you cancel your membership.

Can I claim my reward when I left the patreon?

You need to stay **x** months consecutive to claim your rewards! (nine months for the mini or eleven months for the bust full color).
If everything is correct, go ahead! Don't be shy to ask for your rewards!

How much time does it take for a reward to be completed?

The time for rewards to be completed now is around 6-7 months for Bust and 1-2 months for the mini. I am finishing the current ones of the patrons that claimed their rewards correctly, also checking if some of the old users who left the patreon still didn't receive their illustrations!

Please be patient for the rewards!

Keep in mind that, as a content creator, I do a lot of work every week and I also need some personal space to draw things that I want to draw, and not just commission art.

Even though it has been 90% of the time this last year I want to focus again on my personal content and on the Youtube channel, because I miss doing content for the platform and also interacting more with the followers and friends there!
