PROJECTS

* All projects listed are from 2021 forward.

- **Sci-Finder** – Created prototype for website/app: “Sci-Finder” using Adobe XD to connect sci-fi fans to content through an interactive streaming service concept. Also provides a potential business venture through VR into the Metaverse/Decentraland. (Website barebones available in presentation.)
- **BU CleanTech Ride Sharing** - Contributing to application with Python and Media Design (BizTech Club). There is a lot of HTML code also. Purpose of the app is to promote sustainability and save BU students money on their return trips to school/trips around town.

WORK EXPERIENCE
