

Hello [Name],

I hope you are doing well. I'm reaching out to explore a potential partnership between [University Name] and **The WICT Network: Southeast** to further support career development for students pursuing careers in **media, technology, telecommunications, and related fields**.

The WICT Network: Southeast is a leading organization within the **cable, media, entertainment, and technology sectors**, dedicated to empowering the next generation of industry leaders through education, mentorship, and professional development. Our **E3 Mentoring Program (Empower. Elevate. Excel.)** offers students a unique opportunity to join an **elite cohort** participating in a **transformative mentoring experience** that connects emerging talent with experienced industry professionals.

Through this program, students gain direct exposure to real-world insights, leadership development, and career readiness skills that meaningfully **complement university career services initiatives**. Key program topics include:

- **Executive Presence in Today's Virtual Environment** – Developing a consistent, polished professional image both online and in person
- **Social media & Professional Savvy** – Building a credible, career-aligned digital presence
- **Resume Writing Using AI Tools** – Leveraging AI responsibly while ensuring resumes successfully navigate AI-driven screening systems
- **Effective Networking** – Becoming “connection ready” in both virtual and in-person environments

In addition to mentorship, WICT offers opportunities for **industry engagement, professional networking, and leadership exposure** that can enhance your students' preparedness for today's competitive workforce.

I would welcome the opportunity to connect over a **coffee chat or brief meeting** to discuss:

- How WICT's mentoring and professional development programs can **supplement your career services and academic offerings**
- Opportunities for WICT to **participate in or collaborate on campus-hosted career events**, panels, workshops, or speaker series
- Ways we can support **student mentoring, career exploration, and early-career skill development**
- Opportunities for faculty and students to engage with WICT as mentors or mentees

We are especially interested in partnering with institutions that are committed to **bridging the gap between education and industry** and expanding access to meaningful career pathways for students.

Thank you for your time and for the important work you do to support student success. I look forward to the possibility of working together and would be happy to share additional details or explore next steps.

Warm regards,

[Your Name]
