

Husain Nabeel Alsehlawi

Software Engineer | Full Stack Developer

Bahraini | +973 3720 8626 | halsehlawi@outlook.com | [LinkedIn](#) | [Github](#)

Profile

Passionate Software Engineer with hands-on experience in the full software development lifecycle, from concept to deployment. Expertise in building efficient and user-centric full-stack solutions with modern frameworks. A proactive problem-solver committed to writing clean code, embracing emerging technologies, and driving team success.

Highlighted Skills

- **Programming languages** : Python, Java, JavaScript, HTML, CSS, React
- **Soft skills**: team work, problem solving, fast learning
- **Technical skills**: Operating systems (Windows, Linux), network security, cryptography, digital forensics
- **Languages**: Arabic (Native), English (Professional)

Software Engineering Experience

Software Engineer Immersive Bootcamp Fellow, General Assembly, Bahrain **06/2025 - 09/2025**

Completed an intensive 12-week immersive program in full-stack software development. Mastered key technologies including JavaScript, React, Node.js, and Python to build and deploy full-stack applications. Gained proficiency in agile methodologies, version control, and collaborative project development.

Projects:

- **Wordle Game**: A replica of the famous Wordle game built using JS, HTML, and Bootstrap CSS
- **CyberTools**: An app to collect information about cybersecurity tools (EJS, MongoDB, Express)
- **Souqify**: A marketplace where users can setup stores and sell products (React, Express, MongoDB)
- **GainZ**: Fitness tracker app where can track their programs (React, FastAPI, PostgreSQL)

Projects

- **Project Nexus**: cybersecurity management tool designed to automate penetration testing and streamline vulnerability detection.
 - Front-end: React JS, Electron JS (for running it as a desktop app)
 - Backend: Python (SysUtil scripts, SQLite)
 - OS support: Win, Mac, Linux
- **University Network**: Designed a network simulation for the university using Cisco packet tracer

Education

- **Software Engineering Immersive Bootcamp**, General Assembly, Bahrain **06/2025 - 09/2025**
- **Bachelors Degree in Cybersecurity**, University of Bahrain, Bahrain **09/2021 - 12/2025**

Professional Certifications

- Cisco Certified Cybersecurity Associate
 - InfoSec Windows Forensics
 - AWS Cloud Practitioner
 - Microsoft Power Platform Developer Associate
 - Cyber Security basics, Ministry of Interior
-
