bubble bottle_OF / [21:17] / strong language / a repeat faggot, strapped into a leather straitjacket, is then secured in the bondage table, taunted by The Boss about being totally helpless; then hooded and choked. A large mouth stuffing gag is slowly and deliberately inserted and then properly secured. Despite muffled protests, the leaking useless faggot cock locked in chastity indicates otherwise. The electro buttplug is turned on to provide a temporary diversion as the helpless victim is hooded, gasmasked and connected to a bubble bottle. The headphones restrict any audio input and The Boss expertly narrates its hopelessly controlled existence as it struggles to draw in sufficient air.

cage_abuse / [15:29] / strong language / a lucky faggot is given a close-up tour of the cage it will be locked into and how it will be treated like the piece of shit stored object it is. Once gagged, plugged and locked in the cage, the fag is shown how it will be totally controlled and abused – hoping to be able to use its tongue to touch and possibly worship the powerful gloves and boots of The Boss. the faggot is shown how it will suffer in silence and darkness, chained inside the locked cage, and it is then shown the inescapable efficiency of the nose-holes-only rubber hood that will turn it into a helpless faceless stored faggot object.

drone-file / [30:00] / Audio of sequential drone uploads is added to a graphic display of those control functions. Echo effect is added to the upload announcements and the muffled moans & groans of previously bound and gagged drones is layered at about the 10-minute mark.

false memories 1 / [35:56] / audio only – hypno loop / binaural tones used / listener is subjected to a hypno instructions, unable to resist, submitting to breathing and relaxation instructions. Relax and obey...feel the warmth spread...be a good boy...allow your body to be heavy...you're such a good boy...let go...allow The Boss to take control...relax and obey. "Remember The Yellow Brick Road" will invoke a vivid memory flash of running toward a scarecrow in a field, fade to black and then you become the scarecrow, tied to the pole, arms out, unable to move or talk, you feel trapped and helpless.

groans-relax-loop-tones / [1:02:44] / audio only – hypno loop / binaural tones used / "just relax...let go...relax and obey... allow your body to be heavy...give up control...feel the warmth spread through your body...you are such a good boy". The use of a layered audio track of gagged moans and groans of previous victims increases the feelings of submission.

mummified pair / [18:14] / Two subs are mummified side-by-side; both hooded, blindfolded, gasmasked with their hearing controlled with headphones looping the sounds of moaning, groaning gimps. Their respective breathing tubes are connected, allowing simultaneous breath control along with forced amyl use, and both subs are wearing electro butt plugs connected to the same e-stim box. While both subs have their balls stretched with similar hardware, only one has an additional ball crushing attachment.

sissy_tutorial / [6:41] / Using an on-line make-up application tutorial The Boss provides intermittent commentary for sissies who want to improve their lipstick applications skills. Possibly the first installment in a series. Here is the link: [\(39\) Makeup Basics: How I Apply Lipstick \(Without Lip Liners or Brushes\) - YouTube](#)

small_cock_humil_OF / [25:15] / strong language / the head of humiliation sub is duct-taped to toilet bowl, pissed on and experiences the thrill of the flushing process. The sub is hooded, secured in a straitjacket and strapped to a bondage bed and endures many rounds of breath control with a swim cap. A large mouth stuffing gag is worked into place and the sub is forced to accept the gag and its total helplessness. A butt plug hooked up to e-stim box and used to keep the subs mind from wandering as the size and meaning of its tiny chastity pathetic locked cock is discussed, the constant reminders serve to increase the levels of humiliation.

spidey_OF / [25:25] / strong language / a hooded, gagged sub in a superhero costume is forced to balance on a saddle, realizing that taking its hands off the saddle horn will cause it to fall off and it is forced to deal with

the increasing levels of e-stim from a butt plug. A one-sided conversation reveals some long-held fantasies, which causes its web shooter to increase production and output. The helpless superhero has its balls tied to a post as it is forced to play “tiptoe or electro” by performing tasks or suffering the penalty of increased e-stim levels. While kept standing with its balls tied to a post and the continued use of e-stim, a gasmask forces the superhero to breathe through a filled sock bottle. An audio loop via headphones and doses of amyl keep the superhero in a pliable and helpless state.

story_of_a_drone_OF / [23:27] / a faceless, helpless gimp, secured in a severe “nose holes only” rubber hood and locked into The Bondage Box is subjected to forced amyl and a headphone delivered audio loop to turn it into an obedient little drone. Given the option to stop the transformation, the drone “begs” for more, wanting to continue the process and listen to The Boss’s voice take away its free will.

trigger / [0:04] / “Remember The Yellow Brick Road”
