2. MATERIAL AND METHODS

Insert the text about Material and Methods here. If there are tables and/or figures in this section, only indicate their positions. The table/figure will be inserted at the end of the file after the references.

[Insert Figure X here]

If you use equations, do not insert them in the figure format; use the Word's "equation" function for this purpose.

2.1. Subtitle

If you have a subtitle, use sequential numbering from the immediately preceding title.

[Insert Table X here]

3. RESULTS

Insert your results here. Note that Results and Discussions are presented in separate items. Again, tables and figures will only be indicated here and will be inserted at the end of the text after the references.

[Insert Table X here]

4. DISCUSSION

5. CONCLUSIONS

6. REFERENCES

Insert the references used here. Check if all references cited in the text are correctly cited here and that all references described here were cited in the text. Examples of reference formatting can be found on the submission system page under the "submission guidelines" link.

After the references, insert your Tables/Figures if you have them. Remember that the titles of Tables/Figures, as well as the captions, should be presented in Portuguese and English.

The total number of words in the article should be a maximum of 6000 words (excluding tables, figures, and references). If you have any questions, do not hesitate to contact us through the email rarvore@sif.org.br.
