Please add your examples of CVA programmes impacted by sanctions and counterterrorist financing measures during COVID response - both examples of negative impact AND positive impact, where exceptions to the usual sanctions, AML/CT measures have been possible to negotiate.

CaLP will only use this information as evidence in policy dialogue with the donors and regulatory institutions (such as FATF). If you are concerned about disclosing potentially sensitive information here, then please get in touch via email directly with anna.kondakhchyan@calpnetwork.org

Country context	Response modality	What impact of sanctions/AML/CT measures on CVA programme? Please include both negative impacts and positive (where it has been possible to negotiation exemptions etc)
