

PROGRAM APPRAISAL and ALIGNMENT WITH STATE STANDARDS POLICY

PROGRAM APPRAISAL AND ALIGNMENT NEEDS ASSESSMENT

Our yearly school improvement planning process will include:

- An analysis of our state testing data and other school data as necessary to discover the extent to which our students are meeting state standards and our programs are proving effective. An analysis may include performance levels of each demographic group in the school.
- Systematic work to discover and correct the causes of and barriers to high performance by all students and the movement of students toward our goals.
- A revision of our school improvement plan based on our needs assessment data.

The plan will set goals, address causes, and make indicated changes to programs to help move our students to state standards according to the timetable established by the Kentucky Board of Education.

We will implement this process to address the effectiveness of all our programs with procedures consistent with local board policy.

POLICY EVALUATION

We will evaluate the effectiveness of this policy through our school improvement planning process.
