

Artifact Rubric:

A	• Created a new sketch in processing. • Size 400 by 400. • Uses setup method to create white background. • Uses draw method to create 24 rectangles (squares). • Creates 4 squares 0,0 and 200 by 200 that are the appropriate colors. • Created Grid with Appropriate Colors and Used the void mousePressed method to change these rectangle colors by clicking on them. • Demonstrates strong knowledge of creating processing code from minimal instructions.
B	• Created a new sketch in processing. • Size 400 by 400. • Uses setup method to create white background. • Uses draw method to create 24 rectangles (squares). • Creates 4 squares 0,0 and 200 by 200 that are the appropriate colors. • Is able to create processing code from minimal instructions with some teacher intervention.
C	• Created a new sketch in processing. • Size 400 by 400. • Uses setup method to create white background. • Uses draw method to create 24 rectangles (squares). • Is able to create processing code from minimal instructions when supplemental material are provided.
D	• Created a new sketch in processing. • Size 400 by 400. • Uses setup method to create white background.

	Engages with some key principles of processing but needs further instruction.
F	Does Not Meet Requirements
