

Top row: Total EP output of your nation. Side row: Total time trade relations have been set up

	30-40	41-50	51-60	61-70	71-80
1 week (x0)	1	2	3	5	8
10 weeks (x1.5)	1	3	5	8	12
25 weeks (x2)	2	4	6	10	16
50 weeks (x3)	3	6	9	15	24
75 weeks (x4)	4	8	12	20	32

NOTE: You calculate the numbers for your own nation. If a 30 EP nation is trading with a 60 EP nation for one week, the 30 EP nation will get 1 EP and the 60 EP nation will get 3 EP. The money gained from trade does NOT count for this chart; if you have 40 EP and get 1 EP from trade, that does NOT put you in tier two.

ADDITIONAL NOTE: If you are trading what the GM deems a “valuable good,” you have an automatic x1.5 that STACKS with the bonus; i.e. you have a x1.5 bonus and then you trade a valuable good, which makes a total of x3 bonus.
