

Modern Choreography Reflection

After watching the lyrical choreography video (or not if it's not on your portfolio), reflect on your own choreography.

Create a new page after the slide with the video to write your responses.

1. What part of your choreography do you believe best exemplified the concept of modern dance?
2. What was your favorite part of the choreography?
3. Explain your process of developing choreography.
4. Was it difficult or easy to choreograph the chorus? Why?
5. What would you do differently the next time you choreograph?
