HSO – Hook, Story, Offer

“RAD Diversified doubled my investment and enabled me to retire early.” – Kathy Jennifer

Kathy, a 45 year old mom of 2 young boys, pulled up to pick them up from soccer practice in Fall of 2021. She was well aware of the rising price of gas and groceries and knew what these rising prices could do to the money she and her husband had in the bank. She thought about the college fund for her boys, and worried what would happen as the value of that money continued to decrease. She had heard that real estate was one of the only investment types outpacing inflation, but she didn't know how to get involved.

She and her husband didn't have enough to invest in a down payment for a rental property and they had no desire to be landlords. They knew real estate could be a competitive business and they didn't have the time or energy to study it enough to feel like they could confidently invest. As she waited for her boys to wrap up practice, she pulled up Facebook on her phone to distract herself from her problems. That is when the moment struck that would change her life.

PAS – Pain and Desire, Amplify, Solution

Inflation is at an all time high, and with interest rates in most savings accounts being well below the rate of inflation, leaving money in the bank just doesn't cut it anymore.

Money that you have worked hard for for years is being eroded at a fast rate. We see it at the grocery stores, at the gas pump.....\$100 is the new \$20 as they say. This impacts us now and worse, it impacts our future and our childrens future.

But you can protect yourself by investing in the only asset class that is currently beating inflation: Real estate. You don't need to be a mogul, a landlord, or an investor to get started either.

DIC Email – Disrupt, Intrigue, Click

Subject: Protect your cash in the bank, and your families future

There is a reason why real estate is still a hot commodity despite interest rates more than doubling.

It's not because America has become overpopulated. It's because it is the only asset class that is protecting peoples hard earned money from record setting inflation.

RAD Diversified can help you get started in real estate investment even if you do not want to take on being a whole new property. You don't need to be a landlord, or a savvy investor. You just need to be willing to partner with our team of experts and be willing to take the first step towards protecting the money you have worked so hard for.

But that's not all. Click the link below to find out the best benefit of all.
