On-Site Learning

Students

- Follow district safety protocols such as hand washing, wearing face coverings, and social distancing
- Bring your technology device fully charged to school every day
- Take care of your technology device and follow the Acceptable Use Agreement.

Parents and Families

- Update your phone numbers and addresses when changes occur. It is very important the school can get a hold of you at all times.
- Have a back up plan for your students in case school is closed due to COVID-19.
- Keep children home if they exhibit COVID-19 symptoms such as a fever over 100.4, cough, rash, diarrhea, or vomiting.
- Communicate with school immediately if your student has tested positive for COVID-19 or has a close exposure to someone that is COVID-19 positive.
- Communicate to the school when your child needs to be absent from school.
- Talk to your child about the importance of following district safety protocols.
- Re-enroll student(s) in Back to School Registration Gateway

Teacher Expectations:

- Follow district safety protocols such as hand washing, wearing a face covering, and social distancing.
- Teach essential standards
- Teachers need to be familiar, proficient, and consistent with their LMS
- Assess students and develop personalized learning plans
- Design lessons that are easily adaptable to a small group or individual instruction
- Maximize the amount of time teachers are instructing students through one on one student conferencing, direct instruction, and assessment
- Attend all PLC's and school led faculty meetings.
- Follow district sanitation protocols.
- Teachers will provide students with remote lessons if students are absent due to illness or those who are awaiting COVID-19 test results (either via distance learning or work to be made up upon student return)
- Follow district sanitation guidelines
- Educate students on the importance of following district safety protocols such as hand washing, wearing face coverings, and social distancing.
- Prepare students to be on-site learners and remote learners.
- Establish routines and procedures for on-site learning and remote learning

District & Building Expectations:

- Communicate with stakeholders on an ongoing basis through social media, Thrillshare, text messages, and phone calls
- Work in collaboration with state and local health officials
- Promote best practices to establish a positive learning environment
- Provide tools and resources to highly engaging, rigorous learning experiences for all students.
- Access community partners to provide supports for building/family needs
- Support a healthy work-life balance for faculty and staff
