

COD dashboard

The [COD Dashboard](#) announces the evaluated 'usability rating' of COD-ABs and COD-PSs for OCHA 'Operational' and 'Preparedness' countries.

The [Usability Evaluation Overview](#) tab provides statistics about COD-AB and COD-PS usability according to country 'Operational / Preparedness' status, lists the countries by status, lists the depth of administrative unit levels, and lists countries with live web services.

The [Detailed Evaluation](#) tab lists all countries with either a COD-AB or COD-PS and specifies the evaluated usability for administrative levels 1 to 4, availability of live web services, the presence on HDX, and the feasibility of linking the COD-AB and COD-PS within a database or Geographic Information System.

The [ITOS Live Web Services](#) tab lists the status of each country in the ITOS live services development stream
