Summer Fellowship

- Start: Planning a better schedule, have a deposit to avoid having people quit at the last minute. Promote it earlier and look at different dates (plan year in advance maybe). Start seeing who is going with who. Maybe have a duty roster for cooking and cleaning
- Stop: Planning everything in the moment and plan activities in advance.

- Continue: chapter spirit, continue having fellowships, posting to Instagram, and having fun.
- First time we have ever gone on camping trip at Summer Fellowship (not even lodge has done it)
- August is when everyone is worn out. January and November have almost nothing going on (we can deal with cold weather). Late July is another opportunity (need back up plan in case of budget or location messes up)
- Communication is key (you need to reach out to OA reps).
- Talk to OA brothers and ask them what date works best for them
