

# **TheMaskMap-Washington A POC crowdsourced map that we as a community can ID Businesses that do and do not enforce face masks.**

## Resources During Home Isolation

<https://bit.ly/TheMaskMap-Washington> This is a Proof of Concept site that will allow us as a community to ID those businesses that do or do not enforce everyone to wear masks. This will allow us to decide if we want to spend money at these businesses. This is just a google custom map that I have allowed anyone to place a pin under either the "PRO-MASK: Category" layers or "NO ENFORCEMENT: Category" layers, then add the color red and skull icon for no masks, a green sun icon for masks, and a yellow caution icon for those that have a mask required sign but not fully enforcing it (a few patrons not wearing masks and still allowed to purchase items). I highly recommend adding a brief comment with a date or link that explains why you gave the establishment that particular icon. You can even post pictures of offenders.

On mobile try <https://goo.gl/maps/mCPZCmyuCSyiu22Z6> This will allow you to see the map and pins on your Google maps app but not able to edit or add pins.

Here is a link to a brief 1 min demo on how to add pins, comments, and pictures.

<https://drive.google.com/file/d/1mFNRdUUWeCfgykOHILD3xzmRhBf5G1Qd/view?usp=sharing>

When adding to the map please note that there are categories for each "pro-mask" and "no enforcement" businesses; retail, food, grocery, and services. Please click on the subcategory first then choose the business on the map and add it. This will ensure that your pin lands in the correct category.

Happy pinning, and look forward to the launch of [www.themaskmap.com](http://www.themaskmap.com) in the coming weeks.
