Industry

We Can Do It Consulting will join the office management and business process improvement consulting industry. Generally, larger consulting firms, such as KEG Consulting, work with international corporations while smaller consulting firms work with both large corporations and smaller organizations, usually closer to home. Consulting firms structured like ours also have a history of working with local, state, and federal government agencies. The consulting industry is still recovering from the economic recession. It was hit hardest in 2009 when the industry shrank by 9.1%. However, as the economy recovers, the industry is showing signs of growth. A recent study stated that operations management consulting is projected to grow by 5.1% per year for the next several years.
