

wThe Random Roulette Wheel

Estimated Duration: 1-2 hours

Author: James Jeffries

Language(s)/stacks: Any

Summary:

A roulette wheel has numbers from 0 to 36. A spin of the wheel takes 20 seconds and leaves the ball on a random number.

Design and implement a roulette wheel using TDD. Think about how using time and random numbers affects your design. Consider how much functionality each test covers and what responsibilities you are testing.
