# RemindAll

## Privacy Policy

Last Updated: December 4, 2026

---

### Your Privacy Matters

RemindAll ("we," "our," or "the app") is committed to protecting your privacy. This Privacy Policy explains our privacy-first approach and how we handle information when you use our mobile application.

---

### Privacy-First Approach

RemindAll is designed with your privacy in mind:

-  **No Personal Data Collection:** We do not directly collect, store, or sell personal information.
  -  **No Advertising:** The app does not display advertisements.
  -  **No Third-Party Analytics:** We do not use analytics or tracking services.
  -  **Local Storage:** Your reminders and app preferences are stored locally on your device.
  -  **Secure Subscription Management:** The app uses the RevenueCat SDK solely to manage in-app purchases and subscriptions.
- 

## 1. Information We Collect

### 1.1 No Direct Personal Data Collection

RemindAll does **not** require account creation, and we do not ask for your name, email address, or other personal details to use the app.

All reminders and preferences you create are stored locally on your device.

## 1.2 Local Data Storage

All user-created data is stored locally on your device:

- **Reminders:** Saved in a local database on your device.
- **App Preferences:** Stored locally using standard Android storage systems.
- **No Cloud Storage:** Your reminder data does not leave your device.

If you uninstall the app, all locally stored data is removed from your device.

## 1.3 Subscription and Purchase Information (RevenueCat)

RemindAll uses the **RevenueCat SDK** to manage subscriptions and in-app purchases.

RevenueCat may process limited information necessary to:

- Validate and manage subscriptions
- Process in-app purchases
- Maintain subscription status across devices (if applicable)

This information may include:

- Anonymous device identifiers
- Purchase history related to RemindAll
- Subscription status

We do not control how RevenueCat processes data. RevenueCat acts as a third-party service provider, and its data practices are governed by RevenueCat's Privacy Policy.

RemindAll does not receive or store your payment details. All payments are processed securely through the Google Play Store (or relevant app marketplace).

---

## 2. How the App Works

RemindAll operates primarily on your device:

- **Create and Manage Reminders:** All reminder data is stored locally.
- **Offline Functionality:** The app works without an internet connection for core features.

- **Subscription Features:** Premium features are unlocked through secure in-app purchases managed by RevenueCat.

We do not operate our own servers for storing your personal reminder data.

---

## 3. Data Sharing and Disclosure

### 3.1 No Selling of Personal Information

We do not sell, rent, or trade personal information.

### 3.2 Third-Party Services

RemindAll integrates only with:

- **RevenueCat (for subscription management)**
- **Google Play Billing (or relevant app marketplace billing system)**

We do not integrate with:

- Advertising networks
- Third-party analytics tools
- Data brokers
- Marketing tracking services

Any data processed by RevenueCat or the app marketplace is governed by their respective privacy policies.

---

## 4. Data Retention and Deletion

- **Local Reminder Data:** Stored only on your device and deleted when you uninstall the app.
- **Subscription Data:** Managed by RevenueCat and the app marketplace according to their retention policies.

You may cancel your subscription at any time through your app marketplace account settings.

---

## 5. Your Rights and Control

Since reminder data is stored locally, you have full control:

- **Access:** You can view all reminders within the app.
- **Modification:** You can edit or delete reminders at any time.
- **Deletion:** Uninstalling the app removes all local reminder data.

For data related to subscriptions and purchases, please refer to RevenueCat's and your app marketplace's privacy policies.

---

## 6. Children's Privacy

RemindAll does not knowingly collect personal information from children under 13.

The app:

- Does not require registration
- Does not include advertising
- Does not include social features or public user-generated content

If you believe a child has provided personal information through third-party billing systems, please contact the relevant app marketplace provider.

---

## 7. Data Security

RemindAll's privacy-focused design enhances security:

- Reminder data is stored locally on your device.
- No central database of user reminders exists.
- Payments are securely handled by the app marketplace.
- Subscription validation is securely managed through RevenueCat.

We rely on the security measures provided by Android, Google Play, and RevenueCat to protect purchase-related information.

---

## 8. International Data Transfers

Since reminder data is stored locally, there are no international transfers of your personal reminder data by us.

However, subscription and billing data processed by RevenueCat or your app marketplace may involve international data transfers, subject to their respective privacy policies.

---

## 9. Changes to This Privacy Policy

We may update this Privacy Policy from time to time to reflect changes in our practices or legal requirements. We will notify users of material changes by:

- Updating the “Last Updated” date
- Posting the updated Privacy Policy within the app

Continued use of RemindAll after changes indicates acceptance of the updated policy.

---

## 10. Your California Privacy Rights (CCPA)

If you are a California resident:

- We do not sell personal information.
  - We do not collect personal information directly.
  - Subscription-related data may be processed by RevenueCat or the app marketplace in accordance with their policies.
- 

## 11. European Privacy Rights (GDPR)

If you are located in the European Economic Area (EEA):

- We do not directly process personal reminder data.
- Reminder data remains on your device.
- Subscription-related data processing is handled by RevenueCat and your app marketplace under their legal bases.

Since we do not directly process personal data beyond what is necessary for subscription functionality, our data processing activities are limited.

---

## Contact Us

If you have any questions about this Privacy Policy, you may contact us at:
