Agenda
October 14, 2014
Creating a Positive Digital Footprint
Facilitator: Jackie Patanio

Url to Agenda: <http://tinyurl.com/digitalfp>

In order for us to teach our students to create a positive digital footprint we first may be aware of what exactly it means and how it is created. From here we will look at Digital Citizenship since they are tied together

Time	Activity
00:00	Click here and answer the survey→ Have you google yourself? 
00:05	What is a digital footprint....and how am I making it a positive one?  • Educators Technology • Digital Citizenship: Common Sense • Kidsmart-Digital Footprint • CyberSmart Click here to add your answers into the padelt.

00:10	What's your Google profile? Activity: Go to google and type in your full name and search. Look around at the web hits that pop up. Next look at the images that populate. Click here to go to the group chart and pick a row to fill in your answers. • What are some of the things that you came across on the web and in the images section? • How do you feel about what popped up from your Google search? • What are some ways our footprint is created? • How does this relate to our students?
00:40	Article: "How Important Are Digital Footprints?" Article: "The Loved Your GPA Then They Saw Your Tweets." Survey: https://www.surveymonkey.com/s/FPTQ326 Extension: Digital Citizenship Video Library and Curriculum
