

THE GROWTH SERIES

[Recommended listen 🎵 : The Cavemen - Who know Go Know 🐾 \(plug in\)](#)

I want this to be short.

So pay attention, and let's play a quick game.

Now...How many people do you know have built real wealth from gambling or winning the lottery?

Really think...

With all the numbers that fill all the tiny sport betting shops of the different gambling brands on every corner in your area and across this country...

DAILY

Really think...

How many renowned wealth magnates and financial juggernauts have traced their wealth to the lottery or sports betting?

Now I want you to play another game

Go on Google, and write the name of anyone who comes to your mind when the word WEALTH is mentioned.

Open your Wikipedia.

And take out time to read about their source

You spend too much time on celebrity gossip blogs..

This is the tatafo that will change your life.

Now back to Wikipedia

Do this for as many names that come to mind (Google will automatically show you related names...)

You can Google the top 50 wealthiest men and women in the world if you can't think of any.

Now deep dive into each one.

And point out as many as are linked to Gambling or Betting (*Pretty sure you'll only find people who own Casinos and Gambling companies there 😊*)

If you do find...which I'm sure is unlikely

They are the exception to the rule.

Only the foolish bet on odds stacked against them by at least 90% - (*which is what people who gamble do. The house never loses 😊*)

Why?

Because **Luck is the fools pipe dream.**

And like someone recently stated...

These companies concentrate on flooding poverty infested areas.

How many Sports betting shops would you find in an estate in Ikoyi?

But how many are in your area?

LUCK IS THE FOOLS PIPE DREAM

Why are rich so bent on selling poor fools this dream?

What mystery are they safeguarding from the masses?

That Success like Wealth does not happen by accident or in one day

In fact you should be VERY AFRAID of accidental results you can't trace to your compounding effort over time and many mistakes.

"Overnight successes" and "lucky breaks" sit on layers, months and years of painful patience and compounding effort

Of your investment of THE 5 CURRENCIES - **Time, Money, Energy, Attention and Cash.**

OVER TIME!

If you got there by mistake, you should be scared.

Because, You don't have keys 🔑

You've probably heard that rich people claim if they go bankrupt they can build it all again.

They weren't lying.

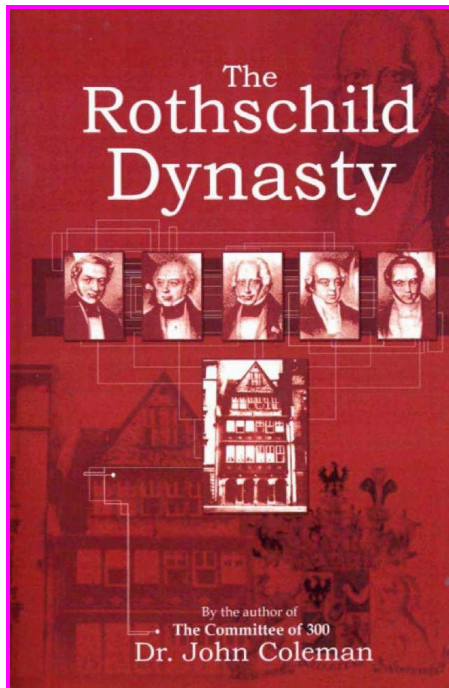

They understand this one thing

THE COMPOUND EFFECT

They know the principles that can replicate those results over and over, in different lands, circumstances, eras or seasons.

There's a reason Generational wealth stays in families long after the forerunners die

Go research [The Rothschild Family](#) & [The Rockefeller Family](#).

BECAUSE THE WEALTHY DO NOT RELY ON LUCK

THEY PROGRAM THEIR OWN LUCK

BY LEVERAGING PRINCIPLES

A Principle like *The Network effect* means we didn't have to rely on luck to get the about 1000 people who have taken action on attending The Growth Conference TGC

Or Principles like *The Compound Effect* which anyone (tribe, race, gender, background) can set in motion to produce generational wealth...

Build INFLUENCE

And MASTERY.

If you can't trace your lucky breaks to the effect of compounding effort...

YOU'RE A TICKING TIME BOMB 💣

A DISASTER WAITING TO HAPPEN

For Success, Growth and Wealth are built on the effect of daily compounding leverage.

Big English...

I'll explain In more simple words...

IMPROVING BY AS LITTLE AS 1% DAILY

Daily building 1% more in capital or money by saving for investment just 10% of every money that enters your purse.

So simple right!?

In Specific Knowledge, Intellectual property by simply reading as little as just 1 chapter or 10 pages everyday

In Mastery by practicing for just 1 hour out of your plenteous 24 everyday

So undramatic and straightforward right!?

In Influence by being invested or investing in people. Giving 1 hour of your time to the people who matter.

And in Strategic Relationships by using the above mentioned to build strategic ties

Improving by as little as 1% EVERYDAY.

Now

Make this a rule of thumb.

A consecration you must break for no man...

Do NOT shut your eyes to sleep any day without increasing by at least 1% in at least one of Cash, Knowledge, Mastery or Influence

A day you don't increase in at least ONE of these

IS A DAY WASTED.

YOU LIVED AND SLEPT LIKE *THE POOR*

I want to say more to you. Stuff only a speaking platform would permit.

So don't you dare miss TGC
