Rules

-No Tracing or stealing
-No Nsfw
-2 parts maximum
-you must put the Codeword in your comment in order to get the part
-If you ask for multiple then put them in order of preference and say how many parts you'd like.
-No watermarks please! I will put your name for you.
-Join the discord when you get a part, no spectators allowed at the moment please!
-I'll be looking for examples
-Not first come first served, but please don't hesitate to join.

- Your part must contain comic panels appearing, sliding or transitioning in any way you'd like

Examples:
https://youtu.be/e7BdBf63D88
https://youtu.be/eq-NrguLV3Q
But it doesn't need to be exactly like those, Be creative!

- Adding Pmv and Amv into the panels is optional, it's much easier using still images (but if you actually did all that effort then thank you!)

- Follow the designs! if there's no designs for the dragon you're looking for then use the Graphic novel's, if there's still no design then use the wiki.

- It's ok if your part doesn't start or end with comic panels, just be sure to add them eventually (you don't need to add to many)

- Follow the script please!

- Reading all the books in the first arc is HIGHLY recommended since the script is written VERY loosely so you need to have the books to add the extra details. However if you missed out on some books then I recommend

you take the parts corresponding to the books you've already read. The graphic novels don't count (sorry)

- Be creative with your part. Like I said, the script is written VERY loosely, they're notes on what should happen in your part, you should add more stuff that happens around that event as well. Example:
- Sunny finds Holler and Fluffy = Sunny stumbles upon Holler and Fluffy and puts them on a wall. She then places Fluffy back on the ground and he returns with all the treasure.
- Queen Battlewinner's death = Glory demanded Battlewinner to cancel the attack but she refused. Starflight came up with an idea and Battlewinner got so mad she got out of her cauldron and froze to death.

- You don't need to add that texture in the map call but if you wanted to:

- (Codeword) to show that you read the rules you must put "HEHEHEHEHEH CLAYYYYY" into your comment.

- Please share this

- Feel free to ask questions if you don't understand

The Deadline is 1 month after you've received your part, A Wip will be due after 2 weeks.
